The Code Margaret O'Mara, 2020-07-07 One of New York Magazine's best books on Silicon Valley The true behind the scenes history of the people who built Silicon Valley and shaped Big Tech in America Long before Margaret O'Mara became one of our most consequential historians of the American led digital revolution she worked in the White House of Bill Clinton and Al Gore in the earliest days of the commercial Internet There she saw firsthand how deeply intertwined Silicon Valley was with the federal government and always had been and how shallow the common understanding of the secrets of the Valley's success actually was Now after almost five years of pioneering research O'Mara has produced the definitive history of Silicon Valley for our time the story of mavericks and visionaries but also of powerful institutions creating the framework for innovation from the Pentagon to Stanford University It is also a story of a community that started off remarkably homogeneous and tight knit and stayed that way and whose belief in its own mythology has deepened into a collective hubris that has led to astonishing triumphs as well as devastating second order effects Deploying a wonderfully rich and diverse cast of protagonists from the justly famous to the unjustly obscure across four generations of explosive growth in the Valley from the forties to the present O'Mara has wrestled one of the most fateful developments in modern American history into magnificent narrative form She is on the ground with all of the key tech companies chronicling the evolution in their offerings through each successive era and she has a profound fingertip feel for the politics of the sector and its relation to the larger cultural narrative about tech as it has evolved over the years Perhaps most impressive O'Mara has penetrated the inner kingdom of tech venture capital firms the insular and still remarkably old boy world that became the cockpit of American capitalism and the crucible for bringing technological innovation to market or not The transformation of big tech into the engine room of the American economy and the nexus of so many of our hopes and dreams and increasingly our nightmares can be understood in Margaret O'Mara's masterful hands as the story of one California valley As her majestic history makes clear its fate is the fate of us all

Nixon's Nuclear Specter William Burr, Jeffrey P. Kimball, 2015-06-15 In their initial effort to end the Vietnam War Richard Nixon and Henry Kissinger attempted to lever concessions from Hanoi at the negotiating table with military force and coercive diplomacy They were not seeking military victory which they did not believe was feasible Instead they backed up their diplomacy toward North Vietnam and the Soviet Union with the Madman Theory of threatening excessive force which included the specter of nuclear force They began with verbal threats then bombed North Vietnamese and Viet Cong base areas in Cambodia signaling that there was more to come As the bombing expanded they launched a previously unknown mining ruse against Haiphong stepped up their warnings to Hanoi and Moscow and initiated planning for a massive shock and awe military operation referred to within the White House inner circle as DUCK HOOK Beyond the mining of North Vietnamese ports and selective bombing in and around Hanoi the initial DUCK HOOK concept included proposals for tactical nuclear strikes against logistics targets and U.S. and South Vietnamese

ground incursions into the North In early October 1969 however Nixon aborted planning for the long contemplated operation He had been influenced by Hanoi's defiance in the face of his dire threats and concerned about U S public reaction antiwar protests and internal administration dissent In place of DUCK HOOK Nixon and Kissinger launched a secret global nuclear alert in hopes that it would lend credibility to their prior warnings and perhaps even persuade Moscow to put pressure on Hanoi It was to be a special reminder of how far President Nixon might go The risky gambit failed to move the Soviets but it marked a turning point in the administration's strategy for exiting Vietnam Nixon and Kissinger became increasingly resigned to a long route policy of providing Saigon with a decent chance of survival for a decent interval after a negotiated settlement and U S forces left Indochina Burr and Kimball draw upon extensive research in participant interviews and declassified documents to unravel this intricate story of the October 1969 nuclear alert They place it in the context of nuclear threat making and coercive diplomacy since 1945 the culture of the Bomb intra governmental dissent domestic political pressures the international nuclear taboo and Vietnamese and Soviet actions and policies It is a history that holds important lessons for the present and future about the risks and uncertainties of nuclear threat making The Clairmont Family

Letters, 1839 - 1889 Sharon Joffe, 2016-08-05 This book is the second of two volumes in an edited collection that brings together the unpublished letters of the extended Clairmont family for the first time The letters housed in the Carl H Pforzheimer Collection of Shelley and His Circle at the New York Public Library inform our understanding of the Shelley Godwin circle through the experiences and thoughts of their descendants The correspondence also enables us to see into the contemporary social history of nineteenth century families living in Europe and Australia dealing with subjects such as the conflicts in Europe woes in the European financial markets and the effects of Australian pioneer life on immigrants to that country The Clairmont Family Letters 1839 1889 improves upon scholarship made by other Shelley and Clairmont collections and is furnished with editorial notes and apparatus from Dr Sharon Joffe These volumes will be of significant interest to scholars in British Romanticism **The History of the Black Watch (Royal Highland Regiment) of Canada: Volume**

Zeidel, 2020-04-15 Robber Barons and Wretched Refuse explores the connection between the so called robber barons who led American big businesses during the Gilded Age and Progressive Era and the immigrants who composed many of their workforces As Robert F Zeidel argues attribution of industrial era class conflict to

an alien presence supplements nativism a sociocultural negativity toward foreign born residents as a reason for Americans dislike and distrust of immigrants And in the era of American industrialization employers both relied on immigrants to meet their growing labor needs and blamed them for the frequently violent workplace contentions of the time Through a sweeping narrative Zeidel uncovers the connection of immigrants to radical isms that gave rise to widespread notions of alien subversives whose presence threatened America s domestic tranquility and the well being of its residents Employers rather than looking at their own practices for causes of workplace conflict wontedly attributed strikes and other unrest to aliens who either spread pernicious foreign doctrines or fell victim to their siren messages These characterizations transcended nationality or ethnic group applying at different times to all foreign born workers Zeidel concludes that ironically stigmatizing immigrants as subversives contributed to the passage of the Quota Acts which effectively stemmed the flow of wanted foreign workers Post war employers argued for preserving America s traditional open door but the negativity that they had assigned to foreign workers contributed to its closing
