

How to Write an Autobiography

Tips to write an autobiography:

Like the examples of autobiographies discussed above, any autobiography needs to deal with a few aspects:

Introduction: One needs to give an introduction about themselves in the autobiography. This introduction needs to contain basic aspects like name, where you live, when and where were you born, what conditions were you born in, etc.

You in totality: This part of the autobiography deals with a general point of view, that you hold about yourself. It also needs to let the reader be able to visualize you in the current day. You need to include your current situations, habits, lifestyle etc.

Life, in general: This part of the autobiography deals with your view about life, on a general note. You need to include your understanding of life and its implications. This part is your route to propound your belief. So, make it descriptive.

View and aims: Here, you talk about where do you see yourself in the future or what you expect to happen in the future. This part, mostly, should be in compatibility with the previous aspect, else your reader could get confused and lose interest in the book.

Conclusion: Like all stories, an autobiography also needs to have an apt conclusion. You can leave a lasting impression on the reader with the help of your conclusion. Remember, you do not need to have a "moral of the story". You can simply end it with hope, if you like.

Always remember, it is your autobiography, not an example of an autobiography, you can write it the way you like. So, experiment and enjoy. As they say, "if you find it interesting while writing it, the reader will find it interesting while reading it". This is where I sign off. Hope to find your autobiography on the stands soon!!

How To Write Anything The Format Of What You Write May Change But The Process Of Writing Anything Remains The Same This book is called How To Write Anything and I confess there is some ego involved in the title But then I've been a professional writer for over 40 years As one of Canada's most successful writers and authors I have written hard news articles soft news and feature articles advertising and promotional copy media releases reports and proposals case studies research papers email messages website content tweets blog posts and other online content I have also written over 20 books on business promotional and online writing and other topics such as writing articles memoir writing and living with Multiple Sclerosis a disease that I have but one that has not prevented me from writing or training I've also written a collection of short stories poetry and a couple of plays So while I haven't written everything I've written many things The fact is that you can't read this book and go forth and write anything if you are not familiar with the format or structure of the document that you want to write be it non fiction or fiction For instance if you want to write a report you do so using the methods in this book However you have to know how to structure reports The same is applicable to email social media content articles promotional content case studies reports white papers PowerPoint presentations speeches website content short stories or novels So some of you reading this book might still have some learning to do However I suspect most of you know the structure of the documents you want to produce and you will be able to immediately apply the methods outlined in the book to writing any document that you need to write
