Jubal S Womb:

Jubal's Womb Donald E. Morrow, 2009-12 When Granny Crow sent her grandson away from the mountains to save his life from the wrath of a gun toting husband she warned him that he couldn't keep doing the doctor work she had taught him to do City doctors got to have a license she warned But had she known how the Boulder City women would welcome the young mountain doctor she might have took her chances with the angry husband **George Eliot's Religious Imagination**

Marilyn Orr, 2018-02-15 George Eliot's Religious Imagination addresses the much discussed question of Eliot's relation to Christianity in the wake of the sociocultural revolution triggered by the spread of theories of evolution The standard view is that the author of *Middlemarch* and *Silas Marner* lost her faith at this time of religious crisis Orr argues for a more nuanced understanding of the continuity of Eliot's work as one not shattered by science but shaped by its influence Orr's wide ranging and fascinating analysis situates George Eliot in the fertile intellectual landscape of the nineteenth century among thinkers as diverse as Ludwig Feuerbach David Strauss and Søren Kierkegaard She also argues for a connection between George Eliot and the twentieth century evolutionary Christian thinker Pierre Teilhard de Chardin Her analysis draws on the work of contemporary philosopher Richard Kearney as well as writers on mysticism particularly Karl Rahner The book takes an original look at questions many believe settled encouraging readers to revisit George Eliot's work Orr illuminates the creative tension that still exists between science and religion a tension made fruitful through the exercise of the imagination Through close readings of Eliot's writings Orr demonstrates how deeply the novelist's religious imagination continued to operate in her fiction and poetry **Another Collection of Philosophical Conferences of the French Virtuosi, upon**

questions of all sorts; for the improving of Natural Knowledg. Made in the Assembly of the Beaux Esprits at Paris, by the most ingenious persons of that nation. Render'd into English, by G. Havers ...&J. Davies. [A translation of 140 conferences of the "Recueil général des questions traitées és conférences du Bureau d'Adresse," the compilation by Théophraste and Eusèbe Renaudot originally issued as "Première (-quatriesme) centurie des questions traitées ez conférences du Bureau d'Adresse."], 1665 *Scribner's Monthly, an Illustrated Magazine for the People*, 1882 **Whatever Is, was** George A. Young, 1887 The three most commonly accepted theories which philosophers have adopted in order to solve the mysterious problem the origin of the Universe are First That it is Self made Pantheism Second That it is Self existent Atheism Third That it is Created by an external agency or Supreme Intelligence Spiritualism In our examination of these theories we have not entered the sanctuary nor discussed any religious dogmas We have taken the Mosaic account of Creation as we have the cosmogonies of Epicurus Kant Laplace and others as their theories to account for the origin of the visible universe and endeavored to logically and philosophically analyze them in order to see which might be the most probable We have more particularly examined the foundation on which rests the philosophy of Herbert Spencer Also the theories of Charles Darwin and endeavored to see if the philosophical structures which they have built thereon can stand

the test of a logical analysis We have presented to our readers a new theory for the Origin or formation of the World and Species and for this purpose have accepted the hypothesis That first before the worlds were formed there existed a chaos a mass of primordial matter termed Atoms We have not inquired into the primal cause of these but assisted by the science of molecular physics have built up the structure of our theory and endeavored to show the secondary or natural cause of the origin of all forms organic and inorganic Also of the continuing existence of all living things and species of things We may be permitted to say That this book will be best appreciated by those who have some knowledge of philosophic literature but no previous reading is necessary to the understanding of the argument or the passing of judgment upon its conclusions Preface PsycINFO Database Record c 2010 APA all rights reserved
