La Peur Et Ses Miroirs:

La Peur et ses miroirs Michel Viegnes, 2009-01-01 La peur et ses miroirs Michel Jacques Viegnes, 2009 La peur a bien mauvaise réputation Collective elle serait l'origine de nombreuses dérives racisme xénophobie délirantes paranoïaques et obsessions sécuritaires Individuelle la voici donc comme un symptôme d'immaturité et réduite une faiblesse honteuse Pourtant souvent fondée n'est-elle pas aussi bonne conseillère et en ce sens proche d'une certaine sagesse Dans cet ouvrage historiens psychologues anthropologues et spécialistes de littérature de cinéma et de musique analysent la peur ses manifestations et ses représentations Peurs infantiles ou pathologiques mais aussi crainte de Dieu ou hantise du monde de demain Ainsi se trouve revisitée sous divers points de vue cette expérience mal vécue et communément partagée que Lovecraft considérait comme l'émotion la plus forte et la plus ancienne de l'humanité Humanitarianism and the Greater War, 1914-24 Elisabeth Piller, Neville Wylie, 2023-10-17 This book provides fresh perspectives on a key period in the history of humanitarianism Drawing on economic cultural social and diplomatic perspectives it explores the scale and meaning of humanitarianism in the era of the Great War Foregrounding the local and global dimensions of the humanitarian responses it interrogates the entanglement of humanitarian and political interests and uncovers the motivations and agency of aid donors relief workers and recipients The chapters probe the limits of humanitarian engagement in a period of unprecedented violence and suffering and evaluate its long term impact on humanitarian action The Emotional Power of Music Tom Cochrane, Bernardino Fantini, Klaus R. Scherer, 2013-07-18 How can an abstract sequence of sounds so intensely express emotional states How does music elicit or arouse our emotions What happens at the physiological and neural level when we listen to music How do composers and performers practically manage the expressive powers of music How have societies sought to harness the powers of music for social or therapeutic purposes In the past ten years research into the topic of music and emotion has flourished In addition the relationship between the two has become of interest to a broad range of disciplines in both the sciences and humanities The Emotional Power of Music is a multidisciplinary volume exploring the relationship between music and emotion Bringing together contributions from psychologists neuroscientists musicologists musicians and philosophers the volume presents both theoretical perspectives and in depth explorations of particular musical works as well as first hand reports from music performers and composers In the first section of the book the authors consider the expression of emotion within music through both performance and composing The second section explores how music can stimulate the emotions considering the psychological and neurological mechanisms that underlie music listening The third section explores how different societies have sought to manage and manipulate the power of music The book is valuable for those in the fields of music psychology and music education as well as philosophy and musicology **Preparing for War: The Making of the 1949 Geneva Conventions** Boyd van Dijk, 2022-02-03 The 1949 Geneva Conventions are the most important rules for armed conflict ever formulated To this day they continue to shape contemporary debates about regulating

warfare but their history is often misunderstood For most observers the drafters behind these treaties were primarily motivated by liberal humanitarian principles and the shock of the atrocities of the Second World War This book tells a different story showing how the final text of the Conventions far from being an unabashedly liberal blueprint was the outcome of a series of political struggles among the drafters It also concerned a great deal more than simply recognizing the shortcomings of international law revealed by the experience of war To understand the politics and ideas of the Conventions drafters is to see them less as passive characters responding to past events than as active protagonists trying to shape the future of warfare In many different ways they tried to define the contours of future battlefields by deciding who deserved protection and what counted as a legitimate target Outlawing illegal conduct in wartime did as much to outline the concept of humanized war as to establish the legality of waging war itself Through extensive archival research and critical legal methodologies *Preparing for War* establishes that although they did not seek war the Conventions drafters prepared for it by means of weaving a new legal safety net in the event that their worst fear should materialize a spectre still haunting us today
