Donne in cerca di equilibrio. Una storia d'amore, amicizia e yoga Zoe Fishman, 2011 *El acontecimiento y lo sagrado* Juan Carlos Scannone, Roberto Walton, Juan Pablo Esperón, 2017-04-06 La filosofía no ha dejado de plantearse fundamentalmente desde el siglo XX el problema de cómo pensar la irrupción de la novedad la posibilidad de crear o de inventar una nueva forma de pensamiento Se han hecho grandes esfuerzos para pensar la realidad fuera de los límites de las categorías tradicionales y la noción de acontecimiento ha sido postulada para abordar de otro modo los problemas ontológicos Por consiguiente resulta de suma relevancia para la coyuntura filosófica actual preguntarnos Sabemos qué nombramos con la noción de acontecimiento Cuál es el alcance de su novedad Remite el acontecimiento al lado mítico o al lado ontológico de la realidad Puede ser referido o vinculado con lo sagrado Es lo sagrado el lugar originario del acontecimiento Este libro cuyo hilo conductor gira en torno al acontecimiento y lo sagrado busca esclarecer estas preguntas desde múltiples perspectivas a fin de aprehender su significado para la comprensión de un mundo en que la contingencia se presenta y nos afecta

Revisiting Jewish Spain in the Modern Era Daniela Flesler, Tabea Alexa Linhard, Adrián Pérez Melgosa, 2015-07-16 This innovative volume offers fresh perspectives and directions on the intersection of Hispanic and Jewish studies. It shows how Jewishness has played a crucial role in Spanish political, social and cultural developments in the modern era, exploring the effects of the multiple material and symbolic absences of Jews and Judaism from modern Spanish society. The book considers the haunting presence that this absence has entailed. Contributors analyze the different and contradictory ways in which Spain as a nation has tried to come to terms with its Jewish memory and with Jews from the nineteenth century to the present. Jos Amador de los Ríos efforts to incorporate Jewishness into the canon of Spanish national literature and history, the emergence in the mid nineteenth century of the figure of the Jewish conspirator who seeks to foment revolutionary unrest in novels from Spain, Italy and France, the development of philosephardism and its interconnections with anti-Semitism, Spanish fascism and colonial ambitions at the turn of the twentieth century, the instrumentalization of the Spanish Jewish past during the Second Republic, the role of philosemitism in the development of Catalan nationalism and the relationship between the memory of Sepharad and Holocaust commemoration in contemporary Spain. This book is based on a special issue of the Journal of Spanish Cultural Studies.

Mais Alexis découvre bien vite que cette étrange boutique ne vend pas que des livres rares et occultes. Stapleton,2017-04-17 Based on a series of detailed case studies this book presents the history of genocide in Africa within the specific context of African history examining conflicts in countries such as Burundi Democratic Republic of Congo Namibia Rwanda and Sudan Why has Africa been the subject of so many accusations related to genocide Indeed the number of such allegations related to Africa has increased dramatically over the past 15 years Popular racist mythology might suggest that Africans belong to tribes that are inherently antagonistic towards each other and therefore engage in tribal warfare which cannot be rationally explained This concept is wrong as Timothy J Stapleton explains in *A History of Genocide in Africa* the many conflicts that have plagued post colonial Africa have had very logical explanations and very few of these instances of African warring can be said to have resulted in genocide Authored by an expert historian of Africa this book examines the history of six African countries Namibia Rwanda Burundi Democratic Republic of Congo Sudan and Nigeria in which the language of genocide has been mobilized to describe episodes of tragic mass violence It seeks to place genocide within the context of African history acknowledging the few instances where the international legal term genocide has been applied appropriately to episodes of mass violence in African history and identifying the many other cases where it has not and instead the term has been used in a cynical manipulation to gain some political advantage Readers will come to understand how to a large extent genocide accusations related to post colonial Africa have often served to prolong wars and cause greater loss of life The book also clarifies how in areas of Africa where genocides have actually occurred there appears to have been a common history of the imposition of racial ideologies and hierarchies during the colonial era which when combined with other factors such as the local geography demography religion and or economics resulted in tragic and appalling outcomes Canalles George R.
