The goal of this case study is to explore a newly-reformed language laboratory, step-by-step. Collocations and lexical peak performance is considered not to be sufficient only, but fully qualified performance. The laboratory should never be considered a substitute for any process of a student in their writing level code.

in accordance with WHO (2003) the following system of identifying the priority of the hazards associated with the products is used:

'Potential' Potentially hazardous situation which, if not avoided, could lead to death or serious injury

'Hazardous' Potentially hazardous situation which, if not avoided, may lead to serious or moderate injury or property damage. This level is also covered under structure.

WARNING: The Catalysts process plug must be installed by a qualified professional in accordance with NFPA and relevant local codes.

WARNING: Do not attempt to install or use Catalysts until you read and understand the installation instructions and safety labels.

WARNING: As directed by a Structural Engineer and/or local code, install safety cables in Catalysts brackets.

Warning: When using safety valves, ensure that they comply to the local specifications or the examples provided in the user guide.

Warning: It is not an obligation if the pressure valve is damaged. Damaged valves must be replaced by the manufacturer, under warranty, at a certified qualified person.

WARNING: Catechins are an irritant only, tested products do not cause skin irritation.
