

Chapter 2

An Introduction to Forwards and Options

Question 2.1

The payoff diagram of the stock is just a graph of the stock price as a function of the stock price:

In order to obtain the profit diagram at expiration, we have to finance the initial investment. We do so by selling a bond for \$50. After one year, we have to pay back: $\$50 \times (1 + 0.1) = \55 . The second figure (on the next page) shows the graph of the stock, of the bond to be repaid, and of the sum of the two positions, which is the profit graph. The arrows show that at a stock price of \$55, the profit at expiration is indeed zero.
