Meta Television Erin Giannini, 2024-03-18 The idea of metatextuality is frequently framed as a recent television development and often paired with the idea that it represents genre exhaustion US television however with its early live performances and set bound sitcoms always suggested an element of self awareness that easily shaded into metatextuality even in its earliest days Meta Television thus traces the general history of US television's metatextuality throughout television's history arguing that TV's self awareness is nothing new and certainly not evidence of a period of aesthetic exhaustion but instead is woven into both its past and present practice elucidated through case studies featuring series from the 1970s to the present day many of which have not been critically analyzed before and the various ways they deploy metatext to both construct and deconstruct their narratives Further Meta Television asserts that this re and de construction of narrative and production isn't just a reward to the savvy and or knowledgeable viewer or consumer but seeks to make broader points about the media we consume and how we consume it This book explores the ways in which the current metatextual turn in both the usual genres in which it appears horror and sci fi fantasy and its movement into drama and

sitcom represents the next turn in television's inherent self-awareness. It traces this element throughout television's history, growing from the more modest reflexivity of programs' awareness of themselves as created objects in a particular medium to the more significant breaking of the fictive illusion and therefore the perceived distance between the audience and the series. Erin Giannini shows how the increased currency of metatextual television in the contemporary era can be tied to a viewership well versed in its stories and production as well as able and willing to talk back via social media. If television reflects culture to a certain extent, this increased reflexivity mirrors that responsive audience as a consequence of the lack of distance that metafiction embraces. As Robert Stam traced the use and implications of reflexivity in film and literature, this book does the same for television, further problematizing John Ellis's glance theory in terms of both production and spectatorship.

Fandom At The Crossroads Katherine Larsen, 2011-11-15 *Fandom At The Crossroads: Celebration, Shame, and Fan/Producer Relationships* is an in-depth exploration of the reciprocal relationship between a groundbreaking cult television show and its equally groundbreaking fandom. For the past six years, the authors have inhabited the close-knit fan communities of the television show *Supernatural*, engaging in criticism and celebration, reading and writing fanfiction, and attending fan conventions. Their close relationships within the community allow an intimate behind-the-scenes examination of fan psychology, passion, motivation, and shame. The authors also speak directly to the creative side in order to understand what fuels the passionate reciprocal relationship *Supernatural* has with its fans and to interrogate the reality of fans' fears and shame. As they go behind the scenes and onto the sets to talk with *Supernatural*'s showrunners, writers, and actors, the authors struggle to negotiate a hybrid identity as *aka* fans, Fangirls, one moment legitimate researchers, the next the boundaries often blur. Their repeated breaking of the fan/creative side boundary is mirrored in *Supernatural*'s reputation for fourth wall breaking, which has attracted journalistic coverage everywhere from *Entertainment Weekly* to the *New York Times*. Written with humor and irreverence, *Stalking Fandom* combines an innovative theorizing of fandom and popular culture, which will be useful in a variety of courses, with a behind-the-scenes story that anyone who's ever been a fan or wondered why others are fans will find fascinating.

Mapping Smallville Cory Barker, Chris Ryan, Myc Wiatrowski, 2014-07-09 One of the first full-length academic projects on the television series *Smallville*, this collection of new essays explains why the WB/CW series is important to understanding contemporary popular culture. The essays are presented in four sections covering broad categories: Clark Kent's metamorphosis to Superman and the influence of his parents and the home; the role of the series' noteworthy female characters; the series' representations of the Other; explorations of identity and the ways in which characters speak to Clark's own struggles and audience reception of the series and its position within the Superman narrative universe.

Holding Television Accountable Allison Christina Budaj, Jonina Anderson-Lopez, 2025-03-13 This work discusses the impact of television show audience participation and expectations in the age of social media through reception theory, content analysis, and primary research on social media platforms. It explores how audience reception can

influence creative decisions and initiatives such as cancel culture and diversity efforts by thoroughly and critically analyzing shows like *Girls* *The 100* *Big Brother* and *Southern Charm* to illustrate this phenomenon Various types of television are examined including reality TV network and cable TV and streaming TV to explore the influence of audience reception on creative ownership and accountability thus demonstrating the power of social media in the hands of viewers
