## **Eurasian Mission An Introduction To Neo Eurasianism:**

Eurasian Mission Alexander Dugin, 2014-12-15 According to Alexander Dugin the twenty first century will be defined by the conflict between Eurasianists and Atlanticists The Eurasianists defend the need for every people and culture on Earth to be allowed to develop in its own way free of interference and in accordance with their own particular values Eurasianists thus stand for tradition and for the blossoming variety of cultures and a world in which no single power holds sway over all the others Opposing them are the Atlanticists They stand for ultra liberalism in both economics and values stopping at nothing to expand their influence to every corner of the globe unleashing war terror and injustice on all who oppose them both at home and abroad This camp is represented by the United States and its allies around the world who seek to maintain America's unipolar hegemony over the Earth The Eurasianists believe that only a strong Russia working together with all those who oppose Atlanticism worldwide can stop them and bring about the multipolar world they desire This book introduces their basic ideas Eurasianism is on the rise in Russia today and the Kremlin's geopolitical policies are largely based on its tenets as has been acknowledged by Vladimir Putin himself It is reshaping Russia's geopolitics and its influence is already changing the course of world history Essentially the unipolar world is simply a means of justifying dictatorship over people and countries I think that we need a new version of interdependence This is particularly relevant given the strengthening and growth of certain regions on the planet which process objectively requires institutionalization of such new poles creating powerful regional organizations and developing rules for their interaction Cooperation between these centers would seriously add to the stability of global security policy and economy Vladimir Putin Valdai Club October 24 2014

**On the Threshold of Eurasia** Leah Feldman, 2018-10-15 On the Threshold of Eurasia explores the idea of the Russian and Soviet East as a political

aesthetic and scientific system of ideas that emerged through a series of intertextual encounters produced by Russians and Turkic Muslims on the imperial periphery amidst the revolutionary transition from 1905 to 1929 Identifying the role of Russian and Soviet Orientalism in shaping the formation of a specifically Eurasian imaginary Leah Feldman examines connections between avant garde literary works Orientalist historical geographic and linguistic texts and political essays written by Russian and Azeri Turkic Muslim writers and thinkers Tracing these engagements and interactions between Russia and the Caucasus Feldman offers an alternative vision of empire modernity and anti imperialism from the vantage point not of the metropole but from the cosmopolitan centers at the edges of the Russian and later Soviet empires In this way On the Threshold of Eurasia illustrates the pivotal impact that the Caucasus and the Soviet periphery more broadly had through the founding of an avant garde poetics animated by Russian and Arabo Persian precursors Islamic metaphysics and Marxist Leninist theories of language on the monumental aesthetic and political shifts of the early twentieth century

Pandemics Among Nations Iskren Ivanov, 2022-06-21 The end of the Cold War marks the geopolitical peak of America's global primacy The centerpiece of U S Foreign Policy in the pre pandemic world order was the assumption that promoting human rights and democracy will secure peace However the Coronavirus Pandemic challenged the U S dominated globalized order The international system in the post pandemic age embodies a paradox of the American primacy and the Chinese struggle for global domination Pandemics Among Nations U S Foreign Policy and the New Grand Chessboard addresses the geopolitical puzzle of the post pandemic world order and seeks to explain how COVID 19 has remastered Brzezinski's theory of the Grand Chessboard In this book Ivanov offers a two level approach emphasizing the consequences of the Pandemic and their impact on U S Foreign Policy He also argues that if the United States wants to maintain its leadership in the post pandemic world order Washington should develop a new concept of smart power to deter the Chinese Art of War The foremost goal of Pandemics Among Nations is to analyze how America could overcome the geopolitical effects of the Pandemic The author examines three possible scenarios for the future role of the United States on the post pandemic Chessboard The analysis rests on the testing of a series of research hypotheses across a structured comparison of all elements of the remastered Grand Chessboard not just on isolated case studies such as China's rise Russian New Imperialism or European ambitions for a mutual defense

**Keeping Things Close: Essays on the Conservative Disposition** Peter King, 2015-06-11 We do not love what we do not know We love what is close to us the people objects and memories and do so because they matter most to us We trust the things that are familiar and seek to nurture and protect them Our lives are habitual based on routine They have meaning because of regularity the continuity of known faces and the ability to exclude others We depend on a few others who we are committed to and who are committed to us We wish to include them in our lives to be included by them and to do this we have to be able to exclude others This book presents a particular vision of conservatism one that is primarily concerned with just carrying on for continuing as we are Most of us most of the time live

quiet and ordinary lives and are quite happy that we do We do not experience great upheaval or flux nor do we wish to We do not relish unpredictability and when it does come we hope it is the exception rather than the rule Likewise we are not habitual rule breakers We are happy to play the game by the rules We simply want to lead our lives care for our loved ones and be able to set our own goals The essays in this book show how we are able to make sense of a complex world consisting largely of strangers who being already preoccupied with their own matters have little time for us And the fact that they generally ignore us makes our lives possible We are nurtured by those things we are able to keep close     **A Traditionalist**

**Confronts Fascism** Julius Evola, 2015-09-17 This volume a companion to Evola's Fascism Viewed from the Right and Notes on the Third Reich contains many of his occasional essays on the topic of fascism as understood from a traditionalist perspective which were written between 1930 and 1971 thus comprising both his contemporary and post war assessments of the fascist phenomenon Here we find Evola's views not only on Italian Fascism and German Nazism but also his discussions of other movements such as the Spanish Falange and the Japanese Imperial ideal as well as his commentary on such diverse subjects as Nazi esotericism the idea of a new spiritual Order to lead Europe and the reasons for his rejection of Nazi biological racism Also included are interviews Evola personally conducted with Corneliu Codreanu the leader of the Iron Guard and Count Coudenhove Kalergi the founder of the Pan European Movement the forerunner of the European Union and the full text of Orientations the famous essay Evola wrote in 1950 concerning the proper approach of the European Right in the post war era which he further developed in Men Among the Ruins These essays show Evola to have been an unsparing critic of fascism always urging traditionalists to aspire for something higher than the merely political     **Transnational**

**Russian Studies** Andy Byford, Connor Doak, Stephen Hutchings, 2020-02-07 This book focuses on how Russia has perpetually redefined Russianness in reaction to the wider world Treating culture as an expanding field it offers original case studies in Russia's imperial entanglements the life of things Russian including the language beyond the nation's boundaries and Russia's positioning in the globalized world     **Sensible Politics** William A. Callahan, 2020-01-08 Visual images are everywhere in

international politics But how are we to understand them In Sensible Politics William A Callahan uses his expertise in theory and filmmaking to explore not only what visuals mean but also how visuals can viscerally move and connect us in affective communities of sense The book's rich analysis of visual images photographs film art and visual artifacts maps veils walls gardens cyberspace shows how critical scholarship needs to push beyond issues of identity and security to appreciate the creative politics of social ordering and world ordering Here sensible politics isn't just sensory but looks beyond icons and ideology to the affective politics of everyday life It challenges our Eurocentric understanding of international politics by exploring the meaning and impact of visuals from Asia and the Middle East Sensible Politics offers a unique approach to politics that allows us to not only think visually but also feel visually and creatively act visually for a multisensory appreciation of politics     **American Rule** Jared Yates Sexton, 2021-09-14 From writer and political analyst Jared Yates

Sexton comes an eye opening journey through American history that unearths and debunks the myths we've always told ourselves Recent years have brought a reckoning in America As rampant political corruption stark inequality and violent bigotry have come to the fore many have faced two vital questions How did we get here And how do we move forward An honest look at the past and how it's been covered up is the only way to find the answers Americans in power have abused and subjugated others since the nation's very beginning and myths of America's unique goodness have both enabled that injustice and buried the truth for generations In American Rule Jared Yates Sexton blends deep research with stunning storytelling digging into each era of growth and change that led us here and laying bare the foundational myths at the heart of the American imagination Stirring unequivocal and impossible to put down American Rule tells the truth about what this nation has always been and challenges us to forge a new path

**Confrontational and Cooperative Regional Orders** Ariel Gonzalez Levaggi, 2019-07-23 This book explains cooperative and confrontational regional orders in the post Cold War era Applying a push and pull framework to the evolution of regional orders the book's theoretical section compares regional dynamics and studies the transformation and authority of governing arrangements among key regional actors who manage security and institutional cooperation This presents a novel approach to comparing non Western regional orders and helps forge a better integration between International Relations disciplinary approaches and area studies The empirical section analyzes Central Eurasia and South America within the period 1989-2017 using case studies and interviews with decision makers practitioners and experts The volume demonstrates that soft engagement strategies from extra regional great powers and internationalist domestic coalitions framed in a stable democratic polity are forces for peaceful interaction while hard engagement strategies from great external powers plus nationalist coalitions within democratic backsliding in key regional powers present negative outlooks for regional cooperation This book will be of much interest to students of regional security comparative politics area studies and International Relations

The World Turned Inside Out Lorenzo Veracini, 2021-09-21 Many would rather change worlds than change the world The settlement of communities in empty lands somewhere else has often been proposed as a solution to growing contradictions While the lands were never empty sometimes these communities failed miserably and sometimes they prospered and grew until they became entire countries Building on a growing body of transnational and interdisciplinary research on the political imaginaries of settler colonialism as a specific mode of domination this book uncovers and critiques an autonomous influential and coherent political tradition a tradition still relevant today It follows the ideas and the projects and the failures of those who left or planned to leave growing and chaotic cities and challenging and confusing new economic circumstances those who wanted to protect endangered nationalities and those who intended to preempt forthcoming revolutions of all sorts including civil and social wars They displaced and moved to other islands and continents beyond the settled regions to rural districts and to secluded suburbs to communes and intentional communities and to cyberspace This book outlines the global history of a resilient political idea to seek change

somewhere else as an alternative to embracing or resisting transformation where one is      **Cosmogonic Reflections:**

**Selected Aphorisms from Ludwig Klages** Ludwig Klages, 2015-06-15 This book is a selection of aphorisms and reflections excerpted from the voluminous works of the German philosopher and psychologist Ludwig Klages. He was a fierce critic of what he saw as the lack of quality in the modern world which he held to be a product of modern ideas and organised Christianity in our era. For Klages the world is divided between life affirming beliefs that venerate nature and those anti natural forces that promote materialism and rationalism. To overcome these anti life forces Klages wished to return European consciousness back to its pagan roots and renew the link between man and sacred nature. He opposed technocratic rationalism, illusions of progress and democracy which he believed to be antithetical to true culture. His aphorisms defend paganism and a healthy Eros for a renewed future. A pagan metaphysical system would not be philosophy as one understands that word today i.e. the hair splitting rehashing of such life alien concepts as would be appropriate to the lecture hall nor would it be characterized by that sort of factitious profundity that seeks to conceal its utter inability to solve the riddles of thought behind a veil of second rate poetic fables. Neither should a genuine pagan metaphysics resemble that which passes for science in the modern world. Before we can discover truths that go to the very roots we must possess a greater fund of inwardness than can be discerned in those thinkers who for at least the last five hundred years have expended their energies exclusively within the realm of reason. p 143      **Last War of the World-Island: The Geopolitics of Contemporary**

**Russia** Alexander Dugin, 2015-05-26 Alexander Dugin traces the geopolitical development of Russia from its origins in Kievan Rus and the Russian Empire through the peak of its global influence during the Soviet era and finally to the current presidency of Vladimir Putin. Dugin sees Russia as the primary geopolitical pole of the land based civilizations of the world forever destined to be in conflict with the sea based civilizations. At one time the pole of the seafaring civilizations was the British Empire; today it is represented by the United States and its NATO allies. Russia can only fulfill its geopolitical mission by remaining in opposition to the sea powers. Today according to Dugin this conflict is not only geopolitical in scope but also ideological. Russia is the primary representative and defender of traditional values and idealism whereas the West stands for the values of liberalism and the market driven society. Whereas Russia began to lose sight of its mission during the 1990s and threatened to succumb to domination by the Western powers, Dugin believes that Putin has begun to correct its course and return Russia to her proper place. But the struggle is far from over while progress has been made, Russia remains torn between its traditional nature and the temptations of globalism and Westernization and its enemies undermine it at every turn. Dugin makes the case that it is only by remaining true to the Eurasian path that Russia can survive and flourish in any genuine sense; otherwise it will be reduced to a servile and secondary place in the world and the forces of liberalism will dominate the world unopposed.      **Making Russia and Turkey Great Again?** Norman A. Graham, Folke Lindahl, Timur

Kocaoglu, 2021-03-19 This study analyzes theoretically and empirically the background of the rise to power of Vladimir Putin.

in Russia and Recep Tayyip Erdogan in Turkey. It situates this analysis in the contexts of the historical assessment of the fragility of liberal democracy and the persistence and growth of authoritarianism, populism and dictatorship in many parts of the world. The authors argue that the question whether Putin and Erdogan can make Russia and Turkey great again is hard to confirm; personal ambition for power and wealth is certainly key to an understanding of both rulers. They each squandered opportunities to build from free and fair democratic electoral legitimacy and economic progress. The prospect for restored national greatness depends on how they can handle the economic and political challenges they now face and will continue to face in the near future in a climate of global pandemic and economic recession. Both rulers so far have succeeded in maintaining and increasing their powers and influence in their respective regions but neither has made real contributions to regional stability and order. Chaos seems to be growing and the EU and the U S thus far seem unable to provide coherent responses to mitigate the impact of their adventurism and disruption.

**The Geopolitics of Space Exploration** Marcello Spagnolo, 2021-04-02. This is the tale of the modern Space Age detailing all the risks, rewards and rivalries that have fueled space exploration over the decades. Jump into a world of ambitious entrepreneurs and determined spacefaring nations of secret spy satellites and espionage of all the cooperative and competing interests vying for dominance in ways little known to the public. Written by an Italian aeronautical engineer with over thirty years of experience in government and private industry, this English translation explains how and why the game has fundamentally evolved and where it is headed next. Exploring such topics as GPS and cyberspace, the economics of private and public industry and the political motivations of emerging spacefaring powerhouses like China, this book is an engaging foray into the ongoing battle for our terrestrial home through extraterrestrial means.

**The Return of Geopolitics** Albert J. Bergesen, Christian Suter, 2018. With globalization fading and geopolitics on the rise, this volume analyzes globalization, geopolitical cycles accompanied by rising and falling economic and military hegemonies and the Chinese concept of Tianxia as an equivalent of the idea of hegemony along with a theory of pre-emptive hegemonic decline. Geopolitical movements are also discussed, including state-seeking movements since the 16th century, Kurdish struggles in Turkey, African terrorist groups and the Russian intellectual movement called Eurasianism. Finally, there is a discussion of the geopolitics of the Anthropocene and the rise of Astropolitical theory.

**The Shock of History: Religion, Memory, Identity** Dominique Venner, 2015-08-06. The shock of history we live, it neither knowing or comprehending it. France, Europe and the world have entered into a new era of thought, attitudes and powers. This shock of history makes clear the fact that there is no such thing as an insurmountable destiny. The time will come for Europe to awaken to respond to the challenges of immigration, toxic ideologies, the perils of globalism and the confusion that assails her. But under what conditions? That is the question to which this book responds. Conceived in the form of a lively and dynamic interview with a historian who after taking part in history himself never ceased to study and reflect upon it. In this text, the first of his major works to appear in English, Dominique Venner recounts the great movements of European history, the origin

of its thought and its tragedies He proposes new paths and offers powerful examples to ward off decadence and to understand the history in which we are immersed and in which we lead our lives
