*Joint Operating Agreements* Eduardo G. Pereira,2015-07-23 Historically oil and gas upstream activities were developed in common law jurisdictions In the same manner the first model form of Joint Operating Agreements JOAs was developed in 1956 by the American Association of Professional Landmen This historical model form provided the industry with guidance for future generations of JOAs Although the JOAs were initially used in common law jurisdictions US Canada UK etc later on it was used in civil law jurisdictions throughout South America Africa Europe and Asia There is no JOA model available in the industry to address all of the requirements from a large variety of civil law perspectives The Norwegian and Greenlandic authorities offer their own JOA models which are suitable within these jurisdictions The AIPN JOA model form 2012 issued a short guidance note for civil law issues Although this initiative was very much welcomed by the industry it was not possible to provide extensive guidance on every detail and provide advice on exactly what your JOA provisions should look like at the very end Therefore the main issue for the petroleum industry is the fact that large upstream investments could be done based on a contract that might not be enforceable in a civil law jurisdiction This book analyses the main issues that a JOA might face within seventeen civil jurisdictions with large oil and gas reserves or at least large potential including but not limited to Angola Argentina Brazil China France Holland Indonesia Kazakhstan Mexico Mozambique Norway Russia Uzbekistan Venezuela etc It is a unique and valuable publication for practitioners legal counsel businessmen and academics involved in

the upstream industry around the world **Telephony**, 1956 *Product Liability Desk Reference: A Fifty-State Compendium, 2021 Edition* Daller, Daller, 2020-10-21 On the front lines of product liability disputes successful litigation planning begins with immediate access to the product liability laws of various jurisdictions plus an understanding of the countless differences among them That s exactly what you get with the thoroughly up to date and expanded edition of Product Liability Desk Reference 2021 Edition edited by Morton F Daller Whether you represent the plaintiff or defendant the Product Liability Desk Reference 2021 Edition is a comprehensive resource that provides the most recent statutory and case law developments on product liability laws for each of the fifty states and the District of Columbia With coverage that is clear and concise you will be able to make an initial assessment of the strengths and weaknesses of your case across jurisdictions Practitioner oriented and written by leading state experts each chapter summarizes the variants and developments particular to a specific state jurisdiction resulting in a text that will assist you in making critical choices in product liability disputes wherever they arise You ll find detailed coverage of each state s standards regarding Causes of action Statutes of limitation and repose Strict liability Negligence Breach of Warranty Punitive damages Wrongful death Pre and post judgment interest Employer immunity from suit Joint and severable liability Relevant statutes to product liability actions Previous Edition Product Liability Desk Reference A Fifty State Compendium 2020 Mid Year Edition ISBN 9781543818925 Note Online subscriptions are for three month periods **United States Code Annotated** United States, 2000 Practical Considerations to Negotiate an Enforceable Joint Operating Agreement under Civil Law Jurisdictions Damilola S.Olawuyi, Eduardo Pereira, 2019-12-18 Because agreements concerning oil and gas upstream activities have historically been developed in common law jurisdictions a growing concern for the petroleum industry is that a some upstream investment might not be enforceable in a civil law jurisdiction to the extent the same standards concepts are used without any adaptation This is why it is essential to understand and analyse how to implement a Joint Operating Agreement in civil law countries This new edition of this unique in depth treatment of JOAs under civil law offers a new abundance of practical considerations addressing enforceability issues in a wide variety of civil law jurisdictions likely to be conducting joint operations among two or more parties The country by country analysis helps greatly in ensuring that such issues and topics as the following will be covered in a contract subject to civil law obligations and liabilities relationship of the parties exclusive operations force majeure hardship and host granting instrument A useful appendix to this new edition is dedicated to a wealth of short practical comments and specific guidance The first edition of this book presented the first JOA edited book to address the essential requirements from a large variety of civil law perspectives This new edition offers a broader and more complete discussion of the latest legal developments with respect to the legal framework and principles underpinning JOAs in more civil law countries It analyses the main issues that the petroleum industry and its investors might face in civil law jurisdictions with actual or potential large oil and gas reserves and as such it is a unique and immensely

valuable source of information and guidance for oil and gas law practitioners legal counsel and business and commercial negotiators involved in transnational operating agreements around the world United States Code Annotated ,1985
