Haas,Amy Shuman,2019-03-11 Across the globe migration has been met with intensifying modes of criminalization and securitization and claims for political asylum are increasingly met with suspicion Asylum seekers have become the focus of global debates surrounding humanitarian obligations on the one hand and concerns surrounding national security and border control on the other In Technologies of Suspicion and the Ethics of Obligation in Political Asylum contributors provide fine tuned analyses of political asylum systems and the adjudication of asylum claims across a range of sociocultural and geopolitical contexts The contributors to this timely volume drawing on a variety of theoretical perspectives offer critical insights into the processes by which tensions between humanitarianism and security are negotiated at the local level often with negative consequences for asylum seekers By investigating how a politics of suspicion within asylum systems is enacted in everyday practices and interactions the authors illustrate how asylum seekers are often produced as suspicious subjects by the very systems to which they appeal for protection Contributors Ilil Benjamin Carol Bohmer Nadia El Shaarawi Bridget M Haas John Beard Haviland Marco Jacquemet Benjamin N Lawrance Rachel Lewis Sara McKinnon Amy Shuman Charles Watters **River restoration: a strategic approach to planning and management** Speed, Robert,Tickner, David,Naiman, Robert,Lei Gang,Sayers, Paul,Wei Yu,Li Yuanyuan,Huang Houjian,Cao Jianting,Yu Lili,Zhao Zhongnan,2016-09-19 **Self-Determination as Voice** Natalie Jones,2024-01-18 Self Determination as Voice addresses the relationship between Indigenous peoples participation in international governance and the law of self determination Many states and international organizations have put in place institutional mechanisms for the express purpose of including Indigenous representatives in international policy making and decision making processes as well as in the negotiation and drafting of international legal instruments Indigenous peoples rights have a higher profile in the UN system than ever before This book argues that the establishment and use of mechanisms and policies to enable a certain level of Indigenous peoples participation in international governance has become a widespread practice and perhaps even one that is accepted as law In theory the law of self determination supports this move and it is arguably emerging as a rule of customary international law However ultimately the achievement of the ideal of full and effective participation in a manner

that would fulfil Indigenous peoples right to self determination remains deferred
