Consideration of the Papal Encyclical Fides Et Ratio Jack Gordon, 1999 **The Two Wings of Catholic Thought** David Ruel Foster, Joseph W. Koterski (s.j.), 2003 John Paul's choice to yoke faith and reason together in an encyclical on the twin sources of knowledge caught the world's attention By stressing the two wings of Catholic thought the pope captures in the lively image of a soaring bird the same point that theologians like von Balthasar communicate by calling truth symphonic The beauty of this symphony like the flight of the bird is even better appreciated when one has studied the component parts Knowing the various components only increases our wonder when we hear the music or see the bird take flight The purpose of this volume is to deepen the appreciation for the stereophonic approach to truth that the Holy Father recommends The essays are in three sections 1 doctrinal themes 2 contemporary implications and 3 historical aspects In the first Avery Cardinal Dulles S J discusses the twentieth century answers to a question that has long haunted Christians who felt the attraction of pagan philosophy Can philosophy be Christian Prudence Allen R S M and Joseph Koterski S J then treat two philosophical topics that have been the most affected by centuries of contact with the Christian faith the philosophy of the person and metaphysics David Meconi S J reflects on the Marian framework that is so typical of Pope John Paul II's thought In the second section Bishop Allen Vigneron considers the significance of this encyclical for Catholic intellectual life today David Foster discusses the implications of Fides et ratio for Catholic universities In the final section Koterski reviews the importance of biblical wisdom literature for the encyclical Michael Sweeney and Timothy Quinn treat medieval philosophy

and modern philosophy respectively Finally Cardinal Dulles considers the Church pronouncements on faith and reason from Vatican I to John Paul II David Ruel Foster is Associate Professor of Philosophy in the School of Theology at Seton Hall University Joseph W Koterski S J is Associate Professor of Philosophy and Chair of the Department of Philosophy at Fordham University He is also editor of International Philosophical Quarterly Contributors Prudence Allen R S M St John Vianney Theological Seminary Avery Cardinal Dulles S J Fordham University David Ruel Foster Seton Hall University Joseph W Koterski S J Fordham University David Vincent Meconi S J Jesuitenkolleg Innsbruck Timothy Sean Quinn Xavier University Michael Sweeney Xavier University and Most Rev Allen Vigneron Auxiliary Bishop of Detroit PRAISE FOR THE BOOK The real contribution of The Two Wings of Catholic Thought is to convey very effectively better than the encyclical itself does just why Fides et Ratio ultimately matters inside the Church and for important issues in wider culture Joseph M Incandela Catholic Education There are several remarkable things about this anthology First and best of all it creates a thirst to go to the source to read the actual encyclical It stirs up a desire to go back to its depths and clarity of vision Second it is a remarkable resource If a criterion of a successful theory or idea is its fruitfulness this book would prove the encyclical s worthiness beyond doubt The seeds of insight in the encyclical blossom beautifully here Here we find a treasure chest of essays on the relation of faith to reason Gregory Kerr Ph D The Maritain Notebook Professors and students in programs that study philosophy and theology together could use this book with profit William L Portier The Thomist

Ratio et Fides

Robert E. Wood, 2018-10-09 In the face of growing skepticism and relativism believe in reason is the central message in Pope John Paul II s Fides et Ratio Only by the two wings of reason and faith together can the human spirit soar The current work Ratio et Fides is its philosophical counterpart It is not a watered down introduction but a leading into the heart of philosophic thinking Firmly rooted in the phenomenological description of an ordinary artifact a mailbox the book uses the principles involved in the description to examine key figures in the history of thought We focus on three areas the Soul Morality and God We consider seven thinkers Plato and Aristotle who founded the tradition were taken up by Augustine and Aquinas in developing their theologies Descartes launched the distinctively modern tradition culminating in Hegel s systematic presentation of the whole Western tradition philosophical and religious More recently Heidegger approached that tradition in terms of its hidden ground in the Mystery of Being recalling us to meditative thinking as the secular counterpart to prayer Armed with this background students will be able to approach with profit the Fathers of the Church and major theologians and philosophers past and recent
