**International Construction Contract Law** Lukas Klee, 2018-07-05 The updated second edition of the practical guide to international construction contract law The revised second edition of International Construction Contract Law is a comprehensive book that offers an understanding of the legal and managerial aspects of large international construction projects This practical resource presents an introduction to the global construction industry reviews the basics of construction projects and examines the common risks inherent in construction projects The author an expert in international construction contracts puts the focus on FIDIC standard forms and describes their use within various legal systems This important text contains also a comparison of other common standard forms such as NEC AIA and VOB and explains how they are used in a global context The revised edition of International Construction Contract Law offers additional vignettes on current subjects written by international panel of numerous contributors Designed to be an accessible resource the book includes a basic dictionary of construction contract terminology many sample letters for Claim Management and a wealth of examples and case studies that offer helpful aids for construction practitioners The second edition of the text includes Updated material in terms of new FIDIC and NEC Forms published in 2017 Many additional vignettes that clearly exemplify the concepts presented within the text Information that is appropriate for a global market rather than oriented to any particular legal system The essential tools that were highlighted the first edition such as sample letters dictionary and more A practical approach to the principles of International Construction Contract Law and construction contract management Does not get bogged down with detailed legal jargon Written for consulting engineers lawyers clients developers contractors and construction managers worldwide the second edition of International Construction Contract Law offers an essential guide to the legal and managerial aspects of large international construction projects

**The FIDIC Contracts** Andy Hewitt, 2014-04-25 It is vital to ensure that your company complies with its contractual obligations It is also vital to check whether the other parties are complying with theirs This book was written to help those involved in the management of busy construction projects to find answers to contractual issues arising from the FIDIC forms of contract The book is organised in such a way that you can find answers in a fraction of the time it would take to study the full conditions of contract This book sets out the contractual obligations of the Employer the Contractor the Engineer and the DAB in a simple tabular form together with the time frames in which they should be performed and the consequences of non compliance This means that you will have all the information at your fingertips without having to study lengthy contractual clauses For those using the FIDIC forms for the first time or perhaps not using them too often this book is a must whilst experienced users will find it provides a valuable checklist Whichever category you fall into using this book should improve both knowledge and efficiency The book is ideal for engineers quantity surveyors contract managers and any person whose job it is to understand the workings of a FIDIC contract Roger Knowles had this to say The most important part of any contract is the obligations of the

parties the time frames in which the parties must perform these obligations and the consequences of failing to meet them Failure to carry out obligations correctly is a serious risk and common source of contention or claims This practical ready reference on the contractual obligations of the various parties for a FIDIC construction contract promotes efficient administration of construction projects prevents contention and aids an easier understanding of their obligations The FIDIC Contracts Obligations of the Parties is presented in an easily referenced tabular format The Red Pink Red Book Subcontract Yellow Silver Gold Pink Green and White Books are all included and for ease of reference each contract is separated into sections relating to the Employer the Contractor the Engineer or the equivalent and the DAB This guide s accessible style will enable all parties and personnel involved in the project to quickly check that their company is performing the required obligations correctly and also to ensure that other parties are doing the same

**FIDIC Contracts: Law and Practice** Ellis Baker, Ben Mellors, Scott Chalmers, Anthony Lavers, 2013-07-31 FIDIC Contracts Law and Practice is sure to become the leading industry standard guide to using the FIDIC forms and is the only book to date which deals with the whole suites of contracts including the new gold book for Design Build and Operate projects The White Case work is outstanding in its detailed consideration and treatment of the legal aspects of the interpretation and application of the Conditions touching on many points that most people would not have encountered Humphrey L Lloyd International Construction Law Review 2010 ICLR 386

**Cornes and Lupton's Design Liability in the Construction Industry** Sarah Lupton, 2013-12-31 Liability for the design of a building or structure is of fundamental concern to construction professionals design build contractors specialist sub contractors and lawyers Although other texts cover a wide range of aspects of liability only Cornes and Lupton s Design Liability in Construction draws together all those matters that relate specifically to design A number of factors have come together recently and are addressed in this significant update and rewrite of the 4th edition including popularity of design build procurement partnering arrangements and early contractor involvement new standard forms of construction contract and appointment and revisions to older forms technical innovations in construction collaborative working and BIM systems many well publicised cases regarding design failures significant developments in the law of tort and professional liability the development of the single European market and increased provision of services overseas Together these factors create a new range of design liability issues which the construction professional has to face Written for lawyers architects engineers and contractors the fifth edition of Design Liability in Construction will also serve as a useful text for masters level courses in engineering surveying and construction law

*Understanding the FIDIC Red Book* Jeremy Glover, Simon Hughes, 2011 Providing an explanation of Internet law and regulation this title addresses key areas of contention such as copyright cash transactions product liability advertising defamation and data protection It also includes coverage of the UK implementation of the E Commerce Directive and the E Signature Directive and the Gambling Act 2005

**FIDIC - A Guide for Practitioners** Axel-Volkmar Jaeger, Götz-Sebastian Hök, 2009-11-11 In 1999 a suite of three new conditions of contract

was published by FIDIC following the basic structure and wording harmonised and updated around the previous FIDIC Design Build and Turnkey Contract the 1992 Orange Book These conditions known as the FIDIC rainbow were the Conditions of Contract for Construction the so called Red Book for works designed by the Employer Plant and Design Build the so called Yellow Book for works designed by the Contractor EPC Turnkey Projects the so called Silver Book for works designed by the Contractor The first is intended for construction works where the Employer is responsible for the design as for per the previous so called Red Book 4th Edition 1987 with an important role for the Engineer The other two conditions of contract are intended for situations when the Contractor is responsible for the design The Plant and Design Build Contract has the traditional Engineer while the EPC Turnkey Contract has a two party arrangement generally with an Employer's Representative as one of the parties
