

# Film Studies Analysis Guide

## Basic Terms

<b>Shot</b>	One continuous piece of film footage, ending with an edit, or cut to the next shot.
<b>Sequence</b>	A series of shots combined to represent a discrete set of actions or a coherent narrative section.
<b>Scene</b>	Similar to a "sequence," a series of shots combined to represent a set of actions happening within the same time and place.
<b>Motif</b>	Anything repeated more than a few times in a film. A motif can be visual (an image or cinematic technique), sonic (a sound or piece of music), or rhetorical (a word, phrase, metaphor, etc.).

### *Categories of Analysis*

<b>Cinematography</b>	A term used to define the ways in which the camera captures the shot. Under the heading of cinematography, we speak of such things as the different lenses used by the camera, how the camera frames the shot, the angle of the camera relative to the action, and how the camera moves.
<b>Editing</b>	Refers to how the individual shots are spliced together. The norm here is "continuity editing," in which shots are put together to achieve narrative continuity—to make the action appear to flow logically and naturally from shot to shot.
<b>Mise-en-scène</b>	Literally meaning "put into the scene," this term refers to the arrangement of actors and objects in front of the camera. Setting, lighting, costuming, and acting are aspects of mise-en-scène.
<b>Sound</b>	Refers to both the sounds that come from the scene itself, such as spoken dialogue or ambient noise, and the sounds that are imposed on the scene, such as voice-overs or musical scores.

*Research Guide to Japanese Film Studies* Abé Markus Nornes, Aaron Gerow, 2016-02-02 The Research Guide to Japanese Film Studies provides a snapshot of all the archival and bibliographic resources available to students and scholars of Japanese cinema Among the nations of the world Japan has enjoyed an impressively lively print culture related to cinema The first film books and periodicals appeared shortly after the birth of cinema proliferating wildly in the 1910s with only the slightest pause in the dark days of World War II The numbers of publications match the enormous scale of film production but with the lack of support for film studies in Japan much of it remains as uncharted territory with few maps to negotiate the maze of material This book is the first comprehensive guide ever published for approaching the complex archive for Japanese cinema It lists all the libraries and film archives in the world with significant collections of film prints still photographs archival records books and periodicals It provides a full annotated bibliography of the core books and magazines for the field

And it supplies hints for how to find and access materials for any research project Above and beyond that Nornes and Gerow's Research Guide to Japanese Film Studies constitutes a comprehensive overview of the impressive dimensions and depth of the print culture surrounding Japanese film and a guideline for future research in the field This is an essential book for anyone seriously thinking about Japan and its cinema
