Short-Versus Long-Term Credit and Economic Performance Mr. Kangni Kpodar, Kodzo Gbenyo, 2010-05-01 This paper studies the link between financial development and economic growth in the West African Economic and Monetary Union WAEMU Using panel data for WAEMU countries over the period 1995 2006 the results suggest that while financial development does support growth in the region long term bank financing has a greater impact on economic growth than short term financing because long term projects have higher returns adjusted for risks Given that in

the WAEMU short term credit accounts for about 70 percent of credit to the private sector WAEMU countries are less able to reap the full benefits of improvements in their financial systems The results also highlight the importance of macroeconomic stability a creditor friendly environment political stability and the availability of long term financial resources in fostering banks supply of long term loans

Applying Metalytics to Measure Customer Experience in the Metaverse Bathla, Devesh, Singh, Amandeep, 2022-06-24 In many ways the appearance of the metaverse is an unparalleled progression A number of new technologies have come together to enable its vision Augmented reality AR and virtual reality VR headsets have become cheaper and more powerful improving the user experience Blockchain has enabled digital currencies and NFTs The new methods to transact and own digital goods are allowing creators to monetize their activities through tokens In addition to monetization and as a means to exchange value token holders can also participate in the platform s governance e g vote on decisions This democratic ownership economy coupled with the possibility of interoperability could unlock immense economic opportunities whereby digital goods and services are no longer captive to a singular gaming platform or brand As the world steps into the metaverse it is imperative to spark conversations with all objects and those interacting within the next dimension Applying Metalytics to Measure Customer Experience in the Metaverse introduces metalytics a new perspective on analytics for the new dimension of spatial and immersive Web 3 0 It presents the new conversations in the elements of a new digital age converging at a large scale Covering topics such as big data analytics financial services and network analysis this premier reference source is an essential resource for business leaders and executives IT managers entrepreneurs financial specialists consultants statisticians marketers government officials students and educators of higher education librarians researchers and academicians
