Performance Management in Nonprofit Organizations Zahirul Hoque, Lee Parker, 2014-10-10 With increased competition for external funding, technological advancement and public expectations for transparency, not-for-profit and non-governmental organizations are facing new challenges and pressures. While research has explored the roles of accounting, accountability and performance management in nonprofit organizations, we still lack evidence on the best practices these organizations implement in the areas of accountability and performance management. This book collects and presents that evidence for the first time, offering insights to help nonprofits face these new challenges head-on. **Performance Management in Nonprofit Organizations** focuses on both conventional and contemporary issues facing nonprofits, presenting evidence-based insights from leading scholars in the field. Chapters examine the design, implementation and working of accounting, accountability, governance and performance management measures, providing both retrospective and contemporary views as well as critical commentaries on accounting and performance-related issues in nonprofit organizations. The book's contributors also offer critical commentaries on the changing role of accounting and performance management in this sector. This research-based collection is an interesting and useful read for academics, practitioners, students and consultants in nonprofit organizations and is highly accessible to accounting and non-accounting audiences alike.

Sport Funding and Finance Bob Stewart, 2017-07-31 Sport Funding and Finance provides a complete introduction to the macro level and micro level aspects of sport finance. It describes the evolution of sport from a kitchen table operation into the sophisticated boardroom driven global financial industry that it is today. It uses the professional sports leagues of the US and Europe as an international benchmark and explains why the financial context is so important for all managers working in sport. The book also provides a step by step introduction to the principles and practice of effective financial management providing the reader with a complete set of professional tools and skills for use in the sport industry. Now in a fully revised and updated new edition the book develops the reader's understanding by first explaining basic concepts in finance and accounting before progressing to more complex issues and ideas. It covers every key topic in financial management including Planning and strategy, Budgeting, Financial projections, Fundraising, Pricing, Costing, Feasibility studies, Economic impact analysis, Ratio analysis. Every chapter includes a blend of theory, contextual material and real world data and case studies from around the world, clearly linking principles to practice as well as review questions and problem solving exercises to test the reader's understanding. Sport Funding and Finance is the perfect foundation text for any degree level course in sport finance and an invaluable reference for any sport management professional looking to deepen their understanding of funding and finance.
