Question Answering for the Curated Web Rishiraj Saha Roy, Avishek Anand, 2022-05-31 Question answering QA systems on the Web try to provide crisp answers to information needs posed in natural language replacing the traditional ranked list of documents. QA posing a multitude of research challenges has emerged as one of the most actively investigated topics in information retrieval, natural language processing and the artificial intelligence communities today. The flip side of such diverse and active interest is that publications are highly fragmented across several venues in the above communities making it very difficult for new entrants to the field to get a good overview of the topic. Through this book we make an attempt towards mitigating the above problem by providing an overview of the state of the art in question answering. We cover the twin paradigms of curated Web sources used in QA tasks: trusted text collections like Wikipedia and objective information distilled into large scale knowledge bases. We discuss distinct methodologies that have been applied to solve the QA problem in both these paradigms using instantiations of recent systems for illustration. We begin with an overview of the problem setup and evaluation, cover notable sub-topics like open domain multi-hop and conversational QA in depth and conclude with key insights and emerging topics. We believe that this resource is a valuable contribution towards a unified view on QA helping graduate students and researchers planning to work on this topic in the near future. *Roger Ebert's Movie Yearbook 2010* Roger Ebert, 2009-11-09 Roger Ebert's Movie Yearbook 2010 is the ultimate source for movies, movie reviews and much more. A Credible Christianity Walter Kania, Ph.D.,2010-06-17 A Syrian poet noted that The world holds two classes of men intelligent men without religion and religious men without intelligence A Nobel Prize winning physicist Dr Steven Weinberg said Religion is an insult to human dignity With or without it you would have good people doing good things and evil people doing evil things But for good people to do evil things that takes religion Could they both be right Or is it possible that we could have a Christianity that is intelligible believable and credible In order for that to be true we would need to rescue our traditional notions and practice of the Christian faith from its ancient fraudulent time warp We need to help it remove itself from the cultural trance in which it exists and the faulty beliefs which it holds We continue to survive on and promote an ancient discredited history of Jesus and the Church The secular and Biblical Scholarship of the last 200 years has been largely ignored in today's Christian beliefs and practices What we have today in Christianity is a distorted disfigured and fraudulent hero of the Christian faith We have numbed and parked our mental faculties regarding the historic knowledge of our religion and the truthful accurate and proper exercise or practice of our religion A Credible Christianity provides you with the best and latest scholarship behavioral research and psychological insight Galileo a hero of the Renaissance who was accused of sacrilege in his day said I do not feel obliged to believe that the same God who has endowed us with sense reason and intellect has intended us to forego their use Visit his website walterkaniaphd.com
