that the pros of testing outweigh their perceptions of the additional costs Those against excessive testing believe that schools are sacrificing learning time in order to test or prepare for the test They also believe that reduced learning time of non tested subjects occurs and more time is given to those students that are performing right below the proficiency score or bubble kids instead of developing every student s full potential Testing in U S public schools is out of control The stress and pressures for all involved have effects that are not even measurable in most instances Is this really the best thing for our schools Are there alternative measures that may serve our future in a better way Will the rewrite of NCLB be enough
