Math Vitamins Loretta Jean Everhart, 2011-08-19 For some students the mere thought of solving a word problem can transform even the most confident among them into nervous wrecks. In her guidebook *Math Vitamins*, retired educator Loretta Jean Everhart shares her methods of success that will help any student from Pre K to fifth grade effectively solve even the most challenging word problems. Everhart taught elementary students for over thirty years and relies on her diverse experience working with students of all levels to offer useful techniques and step by step guidance that will lead parents and teachers through several ways to cope with math anxiety, improve math writing and vocabulary, and use cooperative learning to solve word problems. While providing simple strategies like having children work on jigsaw puzzles to learn guess and test methodologies, Everhart also shares an in depth exploration of Polya's four step model which helps children first understand the problem and then develop a plan on how to answer it. For the parent of a home schooled child or for teacher who is searching for new ideas, this innovative guidebook offers practical tips and suggestions that will help lead struggling students out of the often tricky world of word problems and onto a successful path of future problem solving. **Painless Math**

Word Problems Marcie Abramson, 2010-03-01 This revised title helps middle school and high school students see patterns in math word problems and then make the correct computations to solve them. In the process they work with decimals and fractions, compare rates, and work with proportions and percents. The author presents everyday real world examples which use problem solving strategies that align with those of the National Council of Teachers of Mathematics. The examples are presented in easy to understand language and formats that help guide students through problems in statistics, probability, and even a few fundamentals of algebra. Problems are presented in short answer and open response form to match those in many state assessment tests. Titles in Barron's Painless Series are textbook supplements especially designed to remove the painful aspects of classroom instruction and transform learning into fun. **Math Word Problems in 15 Minutes a Day**

LearningExpress (Organization), 2016 In just one month middle school students can gain expertise in solving word problems. How? Each lesson investigates and clarifies one small part of the bigger problem so every day students can build upon what was learned the day before. *How to Solve Word Problems in Arithmetic* Phyllis L.
