
GLO-BUS QUIZ 2

Which one of the following is NOT a way to improve the P/Q rating of a company's brand of multi-featured cameras? correct answer Increasing the number of models in the company's line of multi-featured cameras.

Assume a company's Income Statement for a given quarter is as follows: Sales Revenues (50,000), Production Costs (26,500), Delivery Costs (1,600), Marketing Costs (8,500), Administrative Expenses (2,000), Operating Profit (14,400), Net Interest (750), Income Before Taxes (13,650), Taxes (4,095), Net Income (9,555). Based on the above data, which of the following statements is false? correct answer Delivery costs are 2.8% of revenues and represent the company's smallest cost component.

One of the benefits of pursuing a strategy of social responsibility and corporate citizenship is correct answer An enhanced image rating, provided company spending for socially responsible activities is meaningful and is sustained over a multi-year period.

Which of the following is NOT an action company co-managers can take to boost a subpar ROE? correct answer Issue additional shares of stock and use the proceeds to pay down the debt outstanding on the company's line of credit.

Which one of the following actions is usually a dependable and appealing way for managers to try to boost their company's EPS? correct answer Achieve a differentiation-based competitive advantage over rivals in both the entry-level and multi-featured camera segments that company managers are savvy enough to sustain; as the market demand for digital cameras grows worldwide and the company exploits its competitive advantage to win additional sales, the profit margins from a growing sales volume of entry-level and multi-featured digital cameras typically results in increase in EPS.

The industry-low, industry-average, and industry-high benchmarks for camera costs and operating profits on pp. 5-6 of each issue of the GLO-BUS Statistical Review. correct answer Are worth careful scrutiny by the managers of all companies because when the benchmarking data signals that a

Bipolar Disorder :Am I Bipolar ? How Bipolar Quiz & Tests Reveal The Answers Heather Rose,2013-06-10 What is bipolar disorder Bipolar disorder also commonly referred to as the manic depressive disorder is a brain illness that is associated with abnormal mood swings activity and energy levels as well as the ability of the affected person to perform normal daily activities It can range from the lows of depression to the highs of obsession As a result of the depression one may lose pleasure or interest in a lot of the activities and end up hopeless or sad Whereas your mood may swing into obsession one may feel full of energy or euphoric The symptoms of this condition are severe and are quite different from the normal mood swings you undergo through from time to time These symptoms may result to poor performance in the work place poor performance in school suicide or damage your relationship However it is important to note that bipolar disease can be treated and those suffering from it may regain their normal productive lives This condition is very common in early adults and late teens Although some people develop early signs during their childhood many develop its signs late in their life Symptoms of bipolar disorder People suffering from this disorder often experience abnormal severe emotional states periodically One may experience a joyful period for sometimes and later the mood may change to a depression or an obsession period Another common symptom is the severe changes in activity behavior sleep or energy levels that are associated with the mood swings If you suffer from this condition you may experience periods of hopelessness loss of pleasure and interest in different activities including sex Other behavioral changes that are common include irritability restlessness poor concentration poor memory thinking about death problems sleeping and one is easily distracted Test For Bipolar Disorder The first step during test is a physical examination conducted by talking to a doctor it involves an interview as well as laboratory tests This disorder cannot be identified through a brain scan or a mere blood test however these tests are essential in ruling out other causing factors such as brain tumor or stroke If bipolar disorder is not caused by other illnesses then the physician may conduct a mental health examination The doctor checks on any bipolar disorder history in the patient's family line The test has to be conclusive to avoid mistaking it for the common unipolar disorder which is a major depressive disorder where the affected don't experience obsession Treatment Of Bipolar Disorder Currently there is no cure for this condition however different treatments are administered to help those suffering from this condition to gain much better control of their mood changes as well as the related symptoms Bipolar disorder is long term and recurrent therefore an efficient maintenance treatment plan should be used This treatment plan involves psychotherapy and other medication is essential in preventing relapse as well as minimizing the severity of its symptoms Since different people respond differently to medication then different medications may be used to treat this condition Among these medications include mood stabilizers lithium valproic acid as well as other anticonvulsant medications
