Popular Mechanics, 1991
2020 Smart Lists Shawn Holley, 2020-05-15. Book Delisted *Road & Track*, 1984-02 Never Stop Driving Mr. Larry Webster, 2019-07-23. With glorious photography and sharp writing, *Never Stop Driving* presents the case for the mental and social benefits of driving and engaging with automobiles. It also shows you from dreaming about a car to living with it: how to jump in and get the most from your machine. There's never been a better time to go for a drive. As a nation, we are chronically overstressed, overworked, and not sleeping enough. Worse yet, our digital devices are taking ever-increasing chunks of what remaining free time we do have. Activities that force us to engage with ourselves and the environment around us are needed more than ever. Might I suggest a spin in a four-wheeled escape pod? The car, the act of driving, repairing, maintaining, drives out distraction and demands we be present. Making the car a pursuit invites not just the freedom of the road but the potential to connect with thousands of like-minded individuals, as well as the pleasure of simply caring for the machine. Further, there's the thrill of commanding an object that represents a high point of human ingenuity and design. Cars invite passion. The first step is embracing the itch and acting on it. Learn how to choose your perfect weekend car, hunt for it, and make the deal. Then find peace in the wrenches with tips on taking the plunge into maintaining your ride, including how your car can be an opportunity to tear your kids away from their screens and strengthen your bond with them. Next, explore the joy of driving from scenic byways to taking your car to its performance limit. You'll also tour the various highlights of the driving life, like how to become an automotive archaeologist, the possibilities for those short on cash but high for adventure, the car as a social gathering point, and what the future with autonomous cars means for those who love to drive. *Never Stop Driving* shines some light on why we find these machines so captivating, offering some inspiration and validation, and finally, inviting those who are curious but haven't made the leap to get in the car. Let's roll. **In the Rearview Mirror** Jerry W.

"Slats" Jackson, 2011-10-12 The hearts of the people depicted in this book are for the most part as pure and white as the driven snow Well most of the time anyway There is little malice in their blunderland you might say but probably wouldn't Take for example my friend Jack Weldons well meaning but flawed odyssey when he guided much like Moses his innocent Lubbock High School classmates on their senior trip to Sligo Texas a host town that turned out to be sort of a ghost town The school board members you see had mandated that it be a day trip no longer than a certain number of miles from Lubbock because in their wisdom they reasoned that an overnigher would surely result in half the class returning home as mothers to be So Jack simply took a compass with a pointy end that he placed on Lubbock calibrated how far he could go with the circles outer extremity to conform to the school boards edict and settled on Sligo It turned out to be a disaster despite Jacks having tried his best to avert such an outcome But you nevertheless must admire him for trying There are certain other antidotes that came along in Lubbock and elsewhere that are described in somewhat sordid detail in this collection of newspaper columns that I hope will evoke a tear or two not in sadness but hopefully in joy as I delve into occasional supercilious silliness while exploring some of lifes foibles that have cropped up along the way And as you dear reader travel lifes byways please always be cognizant of my old Uncle Bens deeply thought out truism which is to wit that it takes a mighty big dog to weigh a ton
