Digital Technologies and Learning in Physical Education Ashley Casey, Victoria A. Goodyear, Kathleen M. Armour, 2016-11-10 There is evidence of considerable growth in the availability and use of digital technologies in physical education Yet we have scant knowledge about how technologies are being used by teachers and whether or how these technologies are optimising student learning This book makes a novel contribution by focusing on the ways in which teachers and teacher educators are attempting to use digital technologies in PE The book has been created using the innovative pedagogical cases framework Each case centres on a narrative written by a PE practitioner explaining how and why technology is used in their practice to advance and accelerate learning Each practitioner narrative is then analysed by a team of experts from different disciplines The aim is to offer a multi dimensional understanding of the possibilities and challenges of supporting young people s learning with digital technologies Each case concludes with a practitioner reflection to illustrate the links between theory research and practice Digital Technologies and Learning in Physical Education encourages critical reflection on the use of technologies in PE It is an essential resource for students on physical education kinesiology or sport science courses practitioners working in PE or youth sport and researchers interested in digital technologies and education

Blind Prophet Isabel Jolie, 2025-06-12 For Her He'll Sacrifice His World They say I'm a visionary the prophet of the digital age But I never saw her coming Seven years after she walked away my brilliant ex wife stands at my compound gates I expect she's here to end things the final contract As usual I'm correct But she also harbors wild accusations Claims someone is orchestrating global chaos She believes I'm innocent She's wrong about that last part I'll play along Let her close Not just because I need to know who sent her but because she's the one clear sight in my world of shadows The woman I never got over My second chance What she doesn't realize is that I see everything The GPS failures The infrastructure attacks The stolen chemical weapons I've watched it all unfold through my network of eyes in the sky But someone's targeting me positioning me as the mastermind while the real enemy works in darkness Now we're trapped in a deadly game of truth and lies She needs to trust her instincts about my innocence I need to trust she won't destroy me when she discovers how deep my deceptions go They say love is blind But in my world it might be the only thing that helps us see the truth In this explosive finale to the Den of Thieves Trilogy the line between ally and enemy blurs When the fate of nations hangs in the balance sometimes the greatest threat is the one you never see coming
