Italian Army Elite Units & Special Forces 1940-43 Pier Paolo Battistelli, 2011-11-20 Italian military historian Pier Paolo Battistelli examines the elite and special forces units of the Italian Army during World War II. This includes a vast array of troop types including paratroopers, assault engineers, sea landing and swimmer units, long range reconnaissance and ski units, and even hand-picked Fascist Mussolini units. It also delves into the specialist tank and armoured units that were created to emulate the German armoured units. While the Italian units discussed enjoyed mixed success, the volume draws attention to the incredibly hard fighting done by some in the deserts of North Africa and the frozen wastelands of Russia. Illustrated with rare archival photographs and specially commissioned artwork, this is a fascinating insight into a little studied aspect of Axis forces.

Italian Navy & Air Force Elite Units & Special Forces 1940-45 Piero Crociani, Pier Paolo Battistelli, 2013-01-20 This volume assesses the formidable Special Forces fielded by Italy's navy and air force in World War II. Italian Navy Special Forces were particularly active and respected in the Mediterranean where 10th Motor Torpedo Boat Flotilla used frogmen, two-man torpedoes and explosive ram boats. The Italian Air Force formed a special commando unit ADRA before the 1943 surrender; it was tasked with attacking Allied airfields and communications in North Africa. Men from ADRA and Army paratroopers formed the new Folgore Regiment which also continued to fight alongside German forces until 1945. In both cases, the pro-Allied Italian forces also formed mirror units to fight alongside US and British forces, including the Recce Squadron F. Featuring rare photographs and specially commissioned artwork, this book tells the story of the little-known elite forces fielded by Italy's navy and air force in World War II, some of whose successors remain in service with today's Italian armed forces.

World War II US Navy Special Warfare Units Eugene Liptak, 2014-10-20 With the need for large-scale amphibious landings to decide the outcome of World War II, the US Navy developed several types of specialized unit to reconnoitre potential landing areas, degrade the enemy's ability to resist, and assist the landing forces on to the beaches. The Scouts and Raiders were the forerunners of the SEALs. Beach Jumpers made elaborate simulated landings to distract the enemy. The Naval Combat Demolition Units and Underwater Demolition Teams cleared obstacles to amphibious landings, and Naval Group China fought alongside Chinese guerrillas behind Japanese lines. This book uncovers the fascinating history of

these units the unique gear they went into theatre with and the vital roles they carried out throughout the war

Hell in the Trenches Paolo Morisi, 2018-11-02 The Austro Hungarian Stormtroopers and the Italian Arditi of World War I were elite special forces charged with carrying out bold raids and daring attacks These units were comprised of hand picked soldiers that possessed above average courage physical prowess as well as specific combat skills Many military historians have argued that the First World War was mainly a static conflict of positional attrition but these shock troops were responsible for developing breakthrough tactics of both fire and movement that marked a significant change to the status quo Both armies used special assault detachments to capture prisoners conduct raids behind enemy lines and attack in depth in order to prepare the way for a broad infantry breakthrough This account traces the development of Austrian and Italian assault troop tactics in the context of trench warfare waged in the mountainous front of the Alps and the rocky hills of the Carso plateau It not only examines their innovative tactics but also their adoption of vastly improved new weapons such as light machine guns super heavy artillery flamethrowers hand grenades daggers steel clubs and poison gas This book offers a narrative of the organizational development of the shock and assault troops of their military operations and their combat methods The bulk of the chapters are devoted to a historical reconstruction of the assault detachments combat missions between 1917-18 by utilizing previously unreleased archival sources such as Italian and Austrian war diaries official manuals divisional and High Command reports and the soldiers own recollections of the war Finally it offers a comprehensive description of their uniforms equipment and weapons along with a large number of illustrations maps and period photographs rarely seen This epic trial of military strength of these special stormtroops cannot be properly understood without visiting and walking the battlefields The appendix thus offers the reader a series of walks to visits key high mountain fortifications in the Italian Dolomites many of which have attained almost legendary status
