

H 253-01 to H 2601-01 Extra Pressure Boosters

Our extra pressure boosters feature a high-pressure pump driven by a 1000-watt motor. The pump is connected to a high-pressure hose, which is used to spray the paint. The pump is also connected to a pressure gauge, which allows you to monitor the pressure of the paint. The pump is also connected to a pressure switch, which allows you to turn the pump on and off. The pump is also connected to a pressure relief valve, which allows you to release the pressure from the pump.

The extra pressure boosters are available in two sizes: 1000-watt and 1500-watt. The 1000-watt booster is suitable for most applications, while the 1500-watt booster is suitable for more demanding applications.

The extra pressure boosters are also available in two colors: black and silver. The black booster is suitable for most applications, while the silver booster is suitable for more demanding applications. The extra pressure boosters are also available in two finishes: standard and chrome. The standard finish is suitable for most applications, while the chrome finish is suitable for more demanding applications.

The extra pressure boosters are also available in two configurations: standard and optional. The standard configuration is suitable for most applications, while the optional configuration is suitable for more demanding applications.
