*Civic Engagement in Global Contexts* Jim Bowman, Jennifer deWinter, 2021-12-01 This volume examines the role of writing rhetoric and literacy programs and approaches in the practice of civic engagement in global contexts Writing programs have experience in civic engagement and service learning projects in their local communities and their work is central to developing students literacy practices Further writing programs compel student writers to attend to audience needs and rhetorical exigencies as well as reflect on their own subject positions Thus they are particularly situated to partner with other units on college campuses engaged in global partnerships Civic Engagement in Global Contexts provides examples and evidence of the critical self reflection and iteration with community partners that make these projects important and valuable Throughout its thirteen chapters this collection provides practical pedagogical and administrative approaches for writing studies faculty engaging with global learning projects as well as nuanced insight into how to navigate contact zones from the planning stages of projects to the hard work of self reflection and change Partnerships and projects across national borders compel the field of rhetoric and composition to think through the ethics of writing studies program design and teaching practices Doing this difficult work can disrupt presumptive notions of ownership that faculty and administrators hold concerning the fields involved in these projects and can even lead to decentering rhetoric composition and other assumptions held by US based institutions of higher education Civic Engagement in Global Contexts will be useful to instructors advisors and project managers of students in faculty led project learning in overseas settings international service learning through foreign study programs and foreign study itself and to faculty members introducing civic engagement and community based learning projects with foreign students in overseas institutions Contributors Olga Aksakalova James Austin Maria de Lourdes Caudillo Zambrano Rebecca Charry Roje Patricia M Dyer Tara E Friedman Bruce Horner Kathryn Johnson Gindlesparger Adela C Licona Ian Mauer Joyce Meier Susan V Meyers Sadia Mir Stephen T Russell *A Political Odyssey*

**Inclusion is Dead** Peter Imray,Andrew Colley,2017-05-18 Inclusion is Dead is a provocative polemic against the widely held notion that inclusion for all children and young people with SEN is both possible and desirable For those with severe learning difficulties SLD and profound and multiple learning difficulties PMLD the authors argue it is neither Imray and Colley assert that the dominance of inclusion has meant that there has been no serious attempt to look at the educational difficulties faced by learners with PMLD and SLD As a vision of egalitarianism and equality for all they say inclusion is dead The authors controversially believe that unless education changes it will remain as a disabling institution that does the exact opposite of its intention The book presents the argument that theorists of inclusion have failed to provide practical solutions on how inclusion can be achieved when SLD and PMLD learners are involved as well as discussing the drawbacks of the inclusion for all argument With up to date references throughout Inclusion is Dead will be an insightful read for teachers and SENCO trainers as well as postgraduates and undergraduates studying courses on politics philosophy and society

Selber,2020-09-04 Information technologies have become an integral part of writing and communication courses shaping the ways students and teachers think about and do their work But too often teachers and other educational stakeholders take a passive or simply reactive role in institutional approaches to technologies and this means they are missing out on the chance to make positive changes in their departments and on campus Institutional Literacies argues that writing and communication

teachers and program directors should collaborate more closely and engage more deeply with IT staff as technology projects are planned implemented and expanded Teachers need to both analyze how their institutions approach information technologies and intervene in productive ways as active university citizens with relevant expertise To help them do so the book offers a three part heuristic reflecting the reality that academic IT units are complex and multilayered with historical spatial and textual dimensions It discusses six ways teachers can intervene in the academic IT work of their own institutions maintaining awareness using systems and services mediating for audiences participating as user advocates working as designers and partnering as researchers With these strategies in hand educators can be proactive in helping institutional IT approaches align with the professional values and practices of writing and communication programs Warriors for Social Justice and Equality Linda J. Quintanilla, 2025-03-17 Warriors for Social Justice examines the contributions of Mexican American activists to the nation's democratic values by concentrating on the activism of Maria Jim nez 1950-2020 in Houston Texas Linda J Quintanilla tells the life story of this admired immigrant and human rights activist who not only fought racist discriminations such as segregation but also typified other Mexican American activists Quintanilla documents how Jim nez and other activists advanced social justice by promoting our nation's best virtues especially equality In 1971 when only 20 Jim nez already had a definition of what it meant for her to be an activist when I see a problem which I feel needs a solution then I go out to solve it Quintanilla describes her lifelong battle against injustice be it racist sexist or anti immigrant animus The Immigrant Workers Freedom Ride in 2003 only one of her many impressive achievements delighted her the most The experience introduced its participants undocumented immigrants to historic places and African American activists and descendants from the Civil Rights Movement The Freedom Ride Jim nez believed not only was educational but also inspired the immigrants in their long and difficult fight to gain legal status a true victory for social justice Quintanilla uses Critical Race Theory CRT which examines the relationship between race racism and power as the framework for studying Jim nez and Mexican American activism She describes the racial discrimination that the Mexican origin community experienced in Texas with a focus on Houston dating from the state's earliest years and continuing into the twenty first century The commonplace belief in the inferiority of the Mexican origin minority contributed for example to segregation substandard public schools and denial of the vote and jury duty Quintanilla also addresses the violence this community suffered from authorities and examines immigration laws in depth in order to provide a historical context to the current national debate on immigration **Signal**, 2013 **Accounting Thought and Practice Reform** Frank Clarke, Graeme William Dean, Martin Persson, 2018-10-09 Raymond John Chambers was born just over a century ago on 16 November 1917 It is more than fifty years since his first classic *Accounting Evaluation and Economic Behavior* was published more than forty since *Securities and Obscurities Reform of the Law of Company Accounts* republished in 1980 as *Accounting in Disarray* and over twenty since the unique *An Accounting Thesaurus Five Hundred Years of Accounting* They are drawn upon extensively in this biography of

Chambers intellectual contributions as are other of his published works. Importantly we also analyze archival correspondence not previously examined. While Chambers provided several bibliographical summaries of his work without the benefits of reviewing and interspersing the text with correspondence materials from the Chambers Archive, this study would lack an appreciation of the impact of his early childhood and nuances related to his practical, including numerous consultancies and academic experiences. The semi biographical narrative codifies article and editorial length exercises by the authors drawing on parts of the archive related to theory development, measurement and communication. Other parts are also examined. This allows us to respond to those critics who claim his reforms were naive. They further reveal a man of theory and practice whose theoretical ideas were solidly grounded on observations from his myriad interests and experiences. Many of his practical experiences have not been examined previously. This approach and the first book length biography differentiates this work from earlier analyses of Chambers' contribution to the accounting literature. American Accounting Association's 2021 Thomas J. Burns Biographical Research Award winner, this book provides evidence to support the continued push for the reforms he proposed to accepted accounting thought and practice to ensure accounting is the serviceable technology so admired by Pacioli, Da Vinci and many other Renaissance pioneers. It will be of interest to researchers, educators, practitioners and regulators alike.

*Reconsidering Southern Labor History* Matthew Hild, Keri Leigh Merritt, 2020-11-03. United Association for Labor Education Best Book Award. The American Dream of reaching success through sheer sweat and determination rings false for countless members of the working classes. This volume shows that many of the difficulties facing workers today have deep roots in the history of the exploitation of labor in the South. Contributors make the case that the problems that have long beset southern labor, including the legacy of slavery, low wages, lack of collective bargaining rights and repression of organized unions, have become the problems of workers across the country. Spanning nearly all of U.S. history, the essays in this collection range from West

Virginia to Florida to Texas They examine vagrancy laws in the early republic inmate labor at state penitentiaries mine workers and union membership and strikes and the often violent strikebreaking that followed They also look at pesticide exposure among farmworkers labor activism during the civil rights movement and foreign owned auto factories in the rural South They distinguish between different struggles experienced by women and men as well as by African American Latino and white workers The broad chronological sweep and comprehensive nature of *Reconsidering Southern Labor History* set this volume apart from any other collection on the topic in the past forty years Presenting the latest trends in the study of the working class South by a new generation of scholars this volume is a surprising revelation of the historical forces behind the labor inequalities inherent today Contributors David M Anderson Deborah Beckel Thomas Brown Dana M Caldemeyer Adam Carson Theresa Case Erin L Conlin Brett J Derbes Maria Angela Diaz Alan Draper Matthew Hild Joseph E Hower T R C Hutton Stuart MacKay Andrew C McKeivitt Keri Leigh Merritt Bethany Moreton Kristin O Brassill Kulfan Michael Sistrom Joseph M Thompson Linda Tvrdy

With Aristotle's *Teaching in the Politics* Thomas L. Pangle offers a masterly new interpretation of this classic philosophical work. It is widely believed that the *Politics* originated as a written record of a series of lectures given by Aristotle and scholars have relied on that fact to explain seeming inconsistencies and instances of discontinuity throughout the text. Breaking from this tradition, Pangle makes the work's origin his starting point, reconceiving the *Politics* as the pedagogical tool of a master teacher. With the *Politics*, Pangle argues, Aristotle seeks to lead his students down a deliberately difficult path of critical thinking about civic republican life. He adopts a Socratic approach, encouraging his students and readers to become active participants in a dialogue. Seen from this perspective, features of the work that have perplexed previous commentators become perfectly comprehensible as artful devices of a didactic approach. Ultimately, Pangle's close and careful analysis shows that to understand the *Politics*, one must first appreciate how Aristotle's rhetorical strategy is inextricably entwined with the subject of his work.

**Indeh** Eve Ball, 2013-06-14 A fascinating account of Apache history and ethnography. All the narratives have been carefully chosen to illustrate important facets of the Apache experience. Moreover, they make very interesting reading. This is a major contribution to both Apache history and to the history of the Southwest. The book should appeal to a very wide audience. It also should be well received by the Native American community. Indeh is oral history at its best. R. David Edmunds, *Utah Historical Quarterly*.

**Arguing to Better Conclusions** W. Peter Robinson, 2013-09-13 This book was written to try to integrate various strands of concern about communication, language, and thinking. There are two related questions that have served to initiate the enquiries that resulted in this book: Why do people hold false beliefs? And why do they accept and use inadequate arguments in support of their beliefs? The author has provided a clear conceptual framework to address these issues, and in doing so, he folds into the arguments the marvelous richness of language as a vehicle of communication.
