

## QUESTION 1

1.1 Solve for  $x$ :

1.1.1  $x^2 + 2x - 15 = 0$

1.1.2  $5x^3 + x - 9 = 0$  (Leave your answer correct to TWO decimal places.)

1.1.3  $x^2 \leq 3x$

1.2 Given:  $a = \frac{64}{x} = 16$

1.2.1 Solve for  $a$ .

1.2.2 Hence, solve for  $x$ :  $2^x + 2^{x-4} = 16$

1.3 Without using a calculator, calculate the value of  $\sqrt[3]{\frac{2^{1000} + 2^{999}}{17(2)^{999}}}$

1.4 Solve for  $x$  and  $y$  simultaneously:

$$2x - y = 2 \quad \text{and} \quad \frac{1}{x} - 3y = 1$$

Smith, 2019-12-11 The research reported in *Caught in the Act* draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers      **Workforce Development** Roger Harris, Tom Short, 2013-11-19 This book captures the essence of current workforce development perspectives and draws on extensive global research to uncover a range of issues confronting organisations Taking primarily an Australian outlook after the global financial crisis and tracing the progress of a national industry sector each chapter delves into a major area of interest for leaders Overall the authors make the case that workforce development is an amalgam of activities influenced by context politics and economic development As the world becomes increasingly connected and mobile workforce development is proving to be a major activity for organisations because it impacts their longer term survival and growth To stay ahead successful organisations focus on attracting building engaging and retaining talented people However in a financially turbulent era where strategy changes quickly workforce development must not only plan and build the capabilities of people at work but also contribute to making employment more socially sustainable for a better world This book provides a thought provoking collection of scholarly work for business leaders human resource practitioners and academics working in adult education business psychology and social science disciplines At the same time it adopts an accessible style for students and others who want to know more about the development of people at work      *Educational Research for Social Justice* Alistair Ross, 2021-06-22 This book presents a series of analyses of educational policies largely in the UK but some also in Europe researched by a team of social scientists who share a commitment to social justice and equity in education We explore what social justice means in educational policy and practice and how it impacts on our understanding of both educational science and the public good Using a social constructivist approach the book argues that social justice requires a particular and critical analysis of the meaning of meritocracy and of the way this term turns educational policies towards treating learning as a competition in which many young people are constructed as losers We discuss how many terms in education are essentialised and have specific and different meanings for particular social groups and how this may create issues in both quantitative survey methods and in determining what is the public good We discuss social justice across a range of intersecting social

characteristics including social class ethnicity and gender as they are applied across the educational policy spectrum from early years to postgraduate education We examine the ways that young people construct their identities and the implications of this for understanding the public good in educational practice We consider the responsibilities of educational researchers to acknowledge these issues and offer examples of researching with such a commitment We conclude by considering how educational policy might contribute to a socially just equitable and inclusive public good
