man the veritable God in the machine the global economy's avatar His memoirs sold for record sums to publishers around the world But then came 2008 Mallaby's story lands with both feet on the great crash which did so much to damage Alan Greenspan's reputation Mallaby argues that the conventional wisdom is off base Greenspan wasn't a naive ideologue who believed greater regulation was unnecessary He had pressed for greater regulation of some key areas of finance over the years and had gotten nowhere To argue that he didn't know the risks in irrational markets is to miss the point He knew more than almost anyone the question is why he didn't act and whether anyone else could or would have A close reading of Greenspan's life provides fascinating answers to these questions answers whose lessons we would do well to heed Because perhaps Mallaby's greatest lesson is that economic statesmanship like political statesmanship is the art of the possible The Man Who Knew is a searching reckoning with what exactly comprised the art and the possible in the career of Alan Greenspan

**School Choice and the Betrayal of Democracy** Robert Asen, 2021-10-04 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper At their core these efforts are antidemocratic Arguing that democratic communities and public education need one another Asen examines the theory driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another The result is a society at odds with democracy Probing and thought provoking **School Choice and the Betrayal of Democracy** features interviews with local on the ground advocates for public education and offers a countering vision of
