Mentoring Nursing Students Essay:

Succeeding in Essays, Exams and OSCEs for Nursing Students Kay Hutchfield, Mooi Standing, 2012-05-23 The word assessment can strike terror into any student. However, providing evidence of knowledge and skills for professional practice is an integral and essential part of university life as a nursing student. This book helps nursing students better understand the processes of assessment so that every student can achieve their potential in their studies. It looks at each of the major forms of assessment including essays, exams, portfolios, presentations, OSCEs and practice assessments. It specifically addresses the needs of nursing students on new degree courses and therefore gives a clear insight on how to succeed as a student nurse.

Mentorship in Community Nursing Judith Canham, Joanne Bennett, 2008-04-15 The importance of the community practice teacher is increasing with the expansion in primary care. Universities around the country have developed courses for practice educators to provide definitive training for that role; there are currently few texts that support these courses directly. This book aims to redress this by covering eight specialist areas of community practice: district nursing, health visiting, school nursing, children's community health nursing, community nursing, mental health, community nursing learning disability, general practice nursing and occupational health nursing. The emphasis is strongly on practical issues rather than theory, and each section considers practice-based dilemmas and offers appropriate debate.

Reflective Practice in Nursing Chris Bulman, Sue Schutz, 2013-01-10 From reviews of previous editions: This excellent book provides useful guidance on the use of reflection in practice, a helpful addition to any nursing library. Primary Health Care: an excellent investment in any nurses' library. portfolio Journal of Advanced Nursing: An extremely welcome addition to nursing's literature on thoughtful, knowledgeable practice. Nursing Times: This is an excellent practical guide to reflective practice. I would highly recommend this book to all practice teachers and students. Journal of Practice Nursing: The ability to reflect on practice has become a competency demanded of every healthcare professional in recent years. It can be a daunting prospect, but this practical and accessible text guides the way, using the latest research and evidence to support the development of skills in reflective practice and provides help and advice on how to get started, how to write reflectively and how to continue to use reflective practice in everyday situations. This fifth edition of *Reflective Practice in Nursing* is an indispensable guide for students and practitioners alike who wish to learn more about reflective practice, as well as containing essential information for teachers and lecturers.

Information Skills for Nursing Students Kay Hutchfield, 2010-08-17 It is essential for nursing students to access current and reliable information to succeed in academic assignments and nursing practice, yet there are increasingly diverse information sources available which can raise questions about the authenticity and reliability of information provided. This book presents a practical and clear guide to mastering information skills. It shows the reader how to effectively plan and implement a search for information and make judgements on the quality of the sources found. It also gives strategies for storage and retrieval of information, helping nurses to maximise the time they have available for keeping up to date. **Real**

Essays with Readings Susan Anker, 2011-12-28 Real Essays delivers the powerful message that good writing thinking and reading skills are both essential and achievable From the inspiring stories told by former students in Profiles of Success to the practical strategies for community involvement in the new Community Connections Real Essays helps students to connect the writing class with their real lives and with the expectations of the larger world So that students don't get overwhelmed the book focuses first on the most important things in each area such as the Four Most Serious Errors in grammar the Four Basics of each rhetorical strategy and the academic skills of summary analysis and synthesis Read the preface

The Teacher Practitioner and Mentor in Nursing, Midwifery, Health Visiting and the Social Services Peter Jarvis, Sheila Gibson, 1997 The extensive revisions and additions to this text reflect the changes in the way in which teaching and learning take place within health care education The roles of the teacher practitioner and the mentor are defined and discussed in detail and the importance of relationships within the education process is explored The authors also examine new developments in adult learning and the concept of the learning experience with particular emphasis on reflective practice and quality
