Robotic Process Automation

Christian Czarnecki, Peter Fettke, 2021-05-10 This book brings together experts from research and practice It includes the design of innovative Robot Process Automation RPA concepts the discussion of related research fields e g Artificial Intelligence AI the evaluation of existing software products and findings from real life implementation projects Similar to the substitution of physical work in manufacturing blue collar automation Robotic Process Automation tries to substitute intellectual work in office and administration processes with software robots white collar automation The starting point for the development of RPA was the observation that despite the use of process oriented enterprise systems such as ERP CRM and BPM systems additional manual activities are still indispensable today In the RPA approach these manual activities are learned and automated by software robots either by defining rules or by observing manual activities RPA is related to business process management machine learning and artificial intelligence Tools for RPA originated from dedicated stand

alone software Today RPA functionalities are also integrated into elaborated process management suites From a conceptual perspective RPA can be structured into input components sensors in the wide sense an intelligence center and output components actuators in the wide sense From a strategic perspective the impact of RPA can be related to the support of existing tasks the complete substitution of human activities and the innovation of processes as well as business models At present high expectations are related to the use of RPA in the improvement of software supported business processes Manual activities are learned and automated by software robots that interact with existing applications via the presentation layer In combination with artificial intelligence AI as well as innovative interfaces e g voice recognition RPA creates a novel level of automation for office and administration processes Its benefit potential reaches a return on investment ROI up to 800% that is documented in various case studies
