

Note: the LED flashes as soon as the START button is pressed and continues to flash until the frequency stabilizes if a "measurement" card has not been inserted and until the frequency and voltage stabilize if a "measurement" card has been inserted.

Following stabilisation, the LED light comes on continuously.

### 3.1.2 Stopping the generating set

- trigger the circuit breaker located at the base of the engine console
- Let the motor run under no-load for 1 to 2 minutes to allow it to cool.
- press the "STOP" button to stop the generating set.
- switch off the SDCS Nexys module by switching the key to "OFF" (without forcing it).

## 3.2. Automatic mode

### 3.2.1 Starting the generating set

DANGER

When the command / control module is operational (key switch turned to ON), the generating set may start without warning, apart from if an external starting command (if the module is equipped with this option).

When the external command is activated, the "AUT" pictogram appears.

| Sequence                                                                                                                                                                                       | Screen display |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| ➤ 5-second delay (if this programming has been performed) to take micro breaks on the line into account.<br>The third line on the screen displays the time remaining for the line micro-break. |                |

At the end of this delay, two scenarios are possible:

| Generating set with air conditioning system |                |                                     |
|---------------------------------------------|----------------|-------------------------------------|
| Sequence                                    | Screen display | LED status                          |
| ➤ Air preheating for 10 seconds             |                | Flashing:                           |
| ➤ Starting                                  |                | Continuously on:                    |
| ➤ Generating set runs at a stable speed     |                | In this case, charging is possible. |
