The Frontiers in Materials Editorial Office team would like to thank each researcher who contributed their work to this collection. We would also like to personally thank the Topic Editors for their exemplary leadership of this article collection; their strong support and passion for this important community driven collection has ensured its success and global impact.

Emily Young, Journal Development Manager Polymeric Systems as Antimicrobial or Antifouling Agents Antonella Piozzi, Iolanda Francolini, 2020-05-22

The rapid increase in the emergence of antibiotic resistant bacterial strains combined with a dwindling rate of discovery of novel antibiotic molecules has created an alarming issue worldwide. Although the occurrence of resistance in microbes is a natural process, the overuse of antibiotics is known to increase the rate of resistance evolution. Under antibiotic treatment, susceptible bacteria inevitably die, while resistant microorganisms proliferate under reduced competition. Therefore, the out of control use of antibiotics eliminates drug susceptible species that would naturally limit the expansion of resistant species. In addition, the ability of many microbial species to grow as a biofilm has further complicated the treatment of infections with conventional antibiotics. A number of corrective measures are currently being explored to reverse or slow antibiotic resistance evolution. Among which, one of the most promising solutions is the development of polymer based antimicrobial compounds. In this Special Issue, different polymer systems able to prevent or treat biofilm formation, including cationic polymers, antibacterial peptide mimetic polymers, polymers or composites able to load and release bioactive molecules, and antifouling polymers able to repel microbes by physical or chemical mechanisms, are reported. Their applications in the design and fabrication of medical devices, in food packaging, and as drug carriers, are investigated.

Building Materials Kathleen Hess-Kosa, 2017-04-07

The construction industry is bombarded with ever changing building materials, components of which are more and more difficult, if not impossible, to identify. Building material emissions have been implicated as a major source of indoor air pollution, and toxic gases, often unidentified, are generated in building fires. Building Materials Product Emission and Combustion Health Hazards undertakes the task of identifying building materials emission and combustion health hazards. This practical guide introduces the complex world of polymers commonly

used in building materials along with plasticizers and additives that are not regulated by OSHA It also explores the topic of building materials as they relate to function and their emissions combustion products along with thermal decomposition and combustion products as they relate to fire first responders Engaging environmental professionals construction management firms architects first respondents and students this valuable reference delivers a comprehensive spectrum of knowledge needed to face the challenges of managing building materials in the twenty first century Awareness is the first line of defense

Safety Engineering Frank R. Spellman,2018-06-20 Many courses and curriculum focus on purely theoretical and scientific aspects of safety and related topics Often these students are lacking the fundamental concepts and principles that are required in the real world Safety Engineering Principles and Practices helps bridge the gap between what is typically taught and what is truly needed The third edition of Safety Engineering has been thoroughly revised updated and expanded It provides practical information for students and professionals who want an overview of the fundamentals and insight into the subtleties of this expanding discipline Although this book primarily serves as a textbook managers and technical personnel will find it a useful reference in dealing with complex safety matters and in planning worker training This edition includes topics such as identifying regulatory requirements handling contemporary problem that affect the modern worker complying with record keeping requirements and much more Modern Sensing Technologies Subhas Chandra

Mukhopadhyay,Krishanthi P. Jayasundera,Octavian Adrian Postolache,2018-08-24 This book provides an overview of modern sensing technologies and reflects the remarkable advances that have been made in the field of intelligent and smart sensors environmental monitoring health monitoring and many other sensing and monitoring contexts in today s world It addresses a broad range of aspects from human health monitoring to the monitoring of environmental conditions from wireless sensor networks and the Internet of Things to structural health monitoring Given its breadth of scope the book will benefit researchers practitioners technologists and graduate students involved in the monitoring of systems within the human body functions and activities healthcare technologies and services the environment etc Clinical Nursing Skills and Techniques

- E-Book Anne G. Perry,Patricia A. Potter,Wendy R. Ostendorf,2017-01-16 NEW Clinical Debriefs are case based review questions at the end of each chapter that focus on issues such as managing conflict care prioritization patient safety and decision making NEW Streamlined theory content in each chapter features a quick easy to read bullet format to help reduce repetition and emphasize the clinical focus of the book NEW Sample documentation for every skill often includes notes by exception in the SBAR format NEW SI units and using generic drug names are used throughout the text to ensure content is appropriate for Canadian nurses as well **Petroleum Microbiology** Biwen Annie An Stepec,Kenneth Wunch,Torben Lund Skovhus,2024-03-04 In the oil and gas industry technologies have been developed to address microbial related issues such as oil field souring microbiologically influenced corrosion biofouling and targeted measures for risk assessment and mitigation Microorganisms have also benefited the oil sector through microbial enhanced oil recovery and bioremediation of petroleum
