

# Study Guide for the Lead Abatement Supervisor Certification Exam

California Department of Public Health  
Childhood Lead Poisoning Prevention Branch, Lead-Related Construction Unit

## Introduction

The purpose of the certification examination is to determine if the Lead Abatement Supervisor candidate possesses the necessary knowledge and abilities associated with performing the Supervisor job duties. This study guide has been developed to help you prepare for the Lead Abatement Supervisor certification examination.

To register for the Lead Abatement Supervisor certification examination, obtain a registration form from CPH HR by calling (916) 223-3624, option 3. CPH HR will provide information regarding examination administration schedules, locations, exam fees, and special accommodations.

You must take the Lead Abatement Supervisor certification examination prior to applying to the California Department of Public Health (CDPH) for certification, and you must also meet the CDPH requirements for training, education, and experience in order to become certified. You may take the exam as many times as you need to in order to pass. However, you must submit a completed re-examination form, and pay the re-examination fee to be rescheduled for a future examination. CDPH recommends that you take the Lead Abatement Supervisor course again if you fail the exam three or more times, but this is not a requirement.

## Examination Content Overview

The Lead Abatement Supervisor certification examination contains 180 questions, all written in the multiple-choice format. Each question has four distinct alternatives from which to choose. None of the examination questions are intended to trick the candidate. Although some of the examination questions may seem to have multiple correct responses, candidates should choose the one response that is best from among the four alternatives. You will be allotted three hours in which to respond to all 180 examination questions.

The Lead Abatement Supervisor certification examination assesses candidate competencies in six content areas. The knowledge and abilities assessed by each of the six content areas, as well as the specific references for each of the knowledge and abilities, are described below. It is from these references that the Lead Abatement Supervisor certification examination questions will be based.

## Regulatory Requirements

The 13 questions covering this content area require the candidate to demonstrate his/her knowledge of the applicable Federal and State regulatory requirements for lead testing and lead in construction activities. A successful candidate should possess the:
