Regulations and Hazardous Waste Disposal: What To Know

HEALTH AND SAFETY PROGRAMS

First, all employers need to have a written health and safety plan. This document must identify all potential safety hazards and outline preventative measures.

EMERGENCY RESPONSE PLAN

Every business handling hazardous waste needs an emergency response plan. If toxic substances contaminate your workplace or harm an employee, everyone needs to know which steps to take.

TRAINING REQUIREMENTS

All staff members must undergo training to identify and handle hazardous waste. Your on-site hazardous waste technicians and specialists must demonstrate their competency regularly. They also need to have 24 hours of specialized training to show their capabilities.

HAZARDOUS WASTE TRANSPORT STANDARDS

Once you dispose of your hazardous waste, someone has to transport it to the appropriate location. OSHA regulates who, where, and how people transfer their materials. These regulations include requiring proper personal protection equipment and restricting transportation tasks to adequately trained personnel.
