deregulation In *Visions of a Digital Nation* Jacob Ward offers an incisive interdisciplinary perspective on how technology prefigured this pivot Giving due consideration to the politicians engineers and managers who paved the way for this historic moment Ward illustrates how the decision validated the privatization of public utilities and tied digital technology to free market rationales In this examination of the national and at times global history of technology Ward s approach is sweeping Utilizing infrastructure studies environmental history and urban and local history Ward explores Britain s nationalist and welfarist plans for a digital information utility and shows how these projects contested and adapted to the market turn under Margaret Thatcher Ultimately *Visions of a Digital Nation* compellingly argues that politicians did not impose neoliberalism top down but that technology engineers and managers shaped these politics from the bottom up
