Everyday Things Dr. Matthew Allen, 2014-02-05 Do you really value the objects around you or are they just things to you The premise of this book is that part of the pleasure of life contentment that we can cultivate no matter how much or how little we have comes from the conscious appreciation of the beauty and the significance of everyday things Through photographs and poems the author takes you on a voyage of discovery through the world around you You are shown sometimes playfully and sometimes profoundly that even the simplest of things a shirt and tie a kitchen colander a closed door or a blue butterfly can have a shining beauty secret story and surprising meaning Along the way you are gently reminded that such objects deserve to be warmed with much handling and gazed upon with pleasure and gratitude as the tiny treasures they are Knowing Poetry Adrian Armstrong, Sarah Kay, 2011-05-15 In the later Middle Ages many writers

claimed that prose is superior to verse as a vehicle of knowledge because it presents the truth in an unvarnished form without the distortions of meter and rhyme Beginning in the thirteenth century works of verse narrative from the early Middle Ages were recast in prose as if prose had become the literary norm Instead of dying out however verse took on new vitality In France verse texts were produced in both French and Occitan with the explicit intention of transmitting encyclopedic political philosophical moral historical and other forms of knowledge In *Knowing Poetry* Adrian Armstrong and Sarah Kay explore why and how verse continued to be used to transmit and shape knowledge in France They cover the period between Jean de Meun's *Roman de la rose* c 1270 and the major work of Jean Bouchet the last of the grands rhétoriciens c 1530 The authors find that the advent of prose led to a new relationship between poetry and knowledge in which poetry serves as a medium for serious reflection and self reflection on subjectivity embodiment and time They propose that three major works the *Roman de la rose* the *Ovide moralisé* and Boethius' *Consolation of Philosophy* form a single influential matrix linking poetry and intellectual inquiry metaphysical insights and eroticized knowledge The trio of thought world contingency poetically represented by *Philosophy Nature and Fortune* grounds poetic exploration of reality poetry and community Indigenous Research of Land, Self, and Spirit Throne, Robin, 2020-12-04 Indigenous cultures meticulously

protect and preserve their traditions Those traditions often have deep connections to the homelands of indigenous peoples thus forming strong relationships between culture land and communities Autoethnography can help shed light on the nature and complexity of these relationships Indigenous Research of Land Self and Spirit is a collection of innovative research that focuses on the ties between indigenous cultures and the constructs of land as self and agency It also covers critical intersectional feminist and heuristic inquiries across a variety of indigenous peoples Highlighting a broad range of topics including environmental studies land rights and storytelling this book is ideally designed for policymakers academicians students and researchers in the fields of sociology diversity anthropology environmentalism and history **Creative Poetry**
