EVERYDAY SURVIVAL

The background of the cover is a photograph of a person's silhouette walking across a dark, jagged fence. The person is walking from left to right, and their legs are in mid-stride. The sky behind them is a bright, clear blue with a few wispy clouds. The overall mood is one of resilience and survival.

Think Twice Michael J. Mauboussin, 2012-11-06 No matter your field industry or specialty as a leader you make a series of crucial decisions every single day. And the harsh truth is that the majority of decisions no matter how good the intentions behind them are mismanaged resulting in a huge toll on organizations the people they employ and even the people they serve. So why is it so hard to make sound decisions. In *Think Twice* now in paperback Michael Mauboussin argues that we often fall victim to simplified mental routines that prevent us from coping with the complex realities inherent in important judgment calls. Yet these cognitive errors are preventable. In this engaging book Mauboussin shows us how to recognize and avoid common mental missteps. These include misunderstanding cause and effect linkages not considering enough alternative possibilities in making a decision and relying too much on experts. Through vivid stories the author presents memorable rules for avoiding each error and explains how to recognize when you should think twice questioning your reasoning and adopting decision making strategies that are far more effective even if they seem counterintuitive. Armed with this awareness you'll soon begin making sounder judgment calls that benefit rather than hurt your organization. Monday Motivation Aaron P. Mikulsky, 2022-07-09 Shortly after joining a new company Aaron began writing weekly emails to his team. On Monday July 21 2014 he sent his first Monday MO. It was short. Care more than others think is wise. Risk more than others think is safe. Dream more than others think is practical. Expect more than others think is possible. Set excellence as your standard. Aaron received tremendous feedback that these weekly Monday MOs or Monday Motivations were valuable. People craved someone who

cared about them personally acknowledged them and respected them They wanted to authentically be encouraged to learn grow improve and be supported People desperately longed for a jolt of positivity and motivation each week Time progressed and the influence of the Monday MO grew Colleagues outside of Aaron s organization wanted to be included in his distribution He was also asked to include spouses parents children and friends MOs were forwarded to others outside of the company who then asked to be included The audience soon became quite large and diverse The Monday MOs were based on topics relevant to the times something Aaron may have recently read or on a subject matter someone wanted him to write about He selected the ones that have stood out the most and has organized them by theme The final product is the book before you Unlike many books that are meant to be read from start to finish this book may be read in any order Pick a topic and read as many as you find beneficial Some may resonate more than others but the hope is that you find many that interest and inspire you This book is for you if you are a curious person who wishes to stretch your mind and get exposure to new perspectives Now go read a MO

Counterpredators Bill Kortenbach,2012-12-14 Counterpredators is a modern solution to an ancient problem Parents face the overwhelming responsibility of training their children to navigate the threat environment and safely molding them into powerful self aware authentic adults At the same time many parents do not themselves possess the necessary skill set and when their children sense this they begin to adopt questionable heroes and role models In the natural world animal parents train their young by repeatedly exposing them to hazard while demonstrating efficient risk management yet our society teaches us to do the exact opposite Shelter and protect our children from whatever might harm them As a result many children are profoundly unprepared to deal with real threat Since both animal and human young are equally vulnerable it is easy to spot the weak link The unprepared human parent To solve this problem parents need to assume a powerful new identity something unique and elemental that rivets the attention and imagination of their children They must become counterpredators individuals who have the skill and the will to engage and overcome human threats Counterpredators is the story of how to achieve this transition using cutting edge methodology Survival Response Conditioning the re activation of dormant subconscious survival skills combined with high pressure scenario based experiences produces rapid permanent change and provides the launch pad for an unbreakable bond of love and respect between parents and children
