Wittgenstein and Education Adrian Skilbeck, Paul Standish, 2023-07-18 WITTGENSTEIN AND EDUCATION

Wittgenstein's later writings are abundant with examples and these return repeatedly to scenes of teaching and learning. Light is cast on language, belief, imagination, perception, illusion, and obsession by asking for each how it is acquired. How do we come into the practices that make up our lives? How beyond the biological do we become human beings? Wittgenstein wanted not to spare others the trouble of thinking but to stimulate readers to thoughts of their own. Yet so much in education today leads students and their teachers along clearly planned, direct routes to achievement, to success without the trouble of thinking. Knowledge and understanding are displaced by transferrable skills and competences with teacher education reduced to priorities of classroom management skills and curriculum delivery. In this climate there is a new growth of interest in the illumination Wittgenstein provides for enquiry into education. This collection, originating in the Annual Conference of the British Wittgenstein Society in 2018, celebrates this influence and demonstrates the range of Wittgenstein's importance for education. **Lost Souls Against the World** Darren Henley, 2011-03-22 Leading for Change Jonathan

Jansen, 2015-08-14 This book offers new theoretical ground for thinking about and transforming leadership and higher education worldwide. Through an examination of the construct of intimacy and nearness, including emotional, spiritual, psychic, intellectual, and physical closeness, Jonathan Jansen demonstrates its power to influence positive leadership in young people. He argues that sensory leadership, which includes but extends beyond the power of touch, represents a fresh and effective approach to progressive transformation of long-divided institutions. Considering richly textured narratives, chapters explore complex intimacies among Black and White university students in South Africa post-apartheid and in the aftermath of a major racial atrocity. The stories reveal the students' transformation in the process of leadership for change, interweaving concepts of racism, human relationships, and intimacy and in turn expanding the knowledge base of social and institutional improvement. This book explores how, when different kinds of nearness come together in leadership change, young people respond in ways that would not be possible through conventional instruments such as policy, legislation, and the appeal to moral sensibilities alone. Leading for Change will be critical reading for academics, researchers, and postgraduate students in the fields of education, educational justice, higher education, educational leadership, and change, social and/or racial justice. This book will also be of interest to those working in the fields of anthropology, social psychology, and South African contemporary politics, policy, and institutional practices. **Where Have All Our Yankees Gone?** Brian Jensen, 2004

Fridays With Landon When we were very young we searched for that elusive utopian community and studies have shown that in our declining years we slowly revert to our childhood Another line of thought is that it's all just a mirage We know and accept that a man can be dying of thirst in the middle of the driest desert and his mind will anesthetize him by creating the illusion of an oasis If we can acknowledge that phenomenon the mind's coping mechanism then it shouldn't be much of a stretch to reason that the elderly possess those same innate coping capabilities to ease their journey home Of course their mirage would be about going home not to a place but to another time What is the driver for this apparently universal pilgrimage I have to wonder even compare it to an addict's motivation
