## **Faa Prep Test:**

Inspection Authorization Test Prep Dale Crane, 2018-11-20 The Inspection Authorization Test Prep provides Aviation Maintenance Technicians AMTs with all the information needed to pass the FAA's Knowledge Exam for Inspection Authorization and helps candidates become familiar with the privileges and limitations of the highest level of maintenance certification. This book is an important reference source for all AMTs seeking to add Inspection Authorization IA to his or her qualifications as well as AMT schools preparing students for the IA test. All IA candidates must take and pass the FAA's exam yet it remains a closed test in that the exact database of questions is not available to the public which makes the IA Test Prep a great way to prepare for it. The IA exam differs from other FAA exams in that questions do not refer to a specific figure. Instead applicants must learn to glean the information they need from the FAA Supplement CT 8080.8 made available for use during the test. The over 500 sample questions typify those that candidates are likely to encounter and train readers in the use of the available documents. Answer choices are supported with explanations with FAA references identified for further study. Also provides details on what applicants need to know about the certification process insight into the function of an IA and excerpts of regulations advisory circulars airworthiness directives type certificate data sheets FAA orders and aircraft specifications. Resources such as pertinent excerpts from these FAA documents and more are reprinted in this study guide additionally readers can access additional study material for this book at a special Reader Resources page at the ASA website. The IA Test Prep conveniently compiles the reference materials necessary to prepare for this exam into one volume for an organized study program that AMT schools instructors and individuals alike can use to streamline their studies. **2024**
