Factor Impact Journals:

The Impact Factor of Scientific and Scholarly Journals Tibor Braun, 2007 *The Little Guide to Getting Your Journal Article Published* John Bond, 2022-11-14 Writing and publishing are at the heart of most academic and research pursuits. Many potential authors, however, feel lost in the seemingly Everest-climbing-like process. There is little formal education that authors receive during their education. *The Little Guide to Getting Your Journal Article Published* seeks to pull back the curtain on the process and provide essential information to lead authors to their goals. The Little Guide answers all of a novice author's questions in a direct and useful fashion. The book can be read all the way through or serve as a spot reference guide as authors wind their way through the process. The book is divided into 29 short focused chapters. Sections include Getting Started, Selecting Potential Journals for Submission, Writing Your Article, Submitting Your Article, and Publication at Last.

Community Engagement Through Collaborative Writing Lisa J. Hardy, 2022-11-30 *Community Engagement Through Collaborative Writing: Storytelling Together* is designed to support scholars and communities storytelling together to reach multiple audiences and facilitate social change. Social scientists, public health practitioners, community leaders, and others recognize that there can be no forward movement in addressing the problems and inequalities facing the world today without collaboration across interdisciplinary, multisectoral, geographic, and socioeconomic divides. The book uses real-world experiences to guide individuals and groups through a process of identifying the knowledge they have and sharing that knowledge through various genres. This process includes identifying and honoring different forms of knowledge, not just academic research and training. Combining the principles of trust and collaboration with practical tools, the chapters contain discussions, examples, and instruments for working together across divides toward a common goal of telling stories together. *Community Engagement Through Collaborative Writing: Storytelling Together* is a valuable resource for applied anthropologists and other social scientists doing community-engaged work for research methods courses and for fields such as public health and education.
