Faculties At Turfloop:

Limpopo's Legacy Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba *Turfloop a Conscious Pariah* Kanyane Chris Kanyane, Chris Kanyane, 2010 This book provides reflections on the butterfly effect on how Turfloop brought in the Age of Barack Obama What is the Age of Barack Obama To paraphrase Dr Ineke Van Kessel a prominent historian at the Leiden University in the Netherlands The University of the North also known as Turfloop played a vital role as the center of communication coordination ideological direction the engine of bringing the new South Africa was University of the North We approached this book like detectives Fortunately in our detective work we were not concerned with a particular agenda we were not trying to prove that a certain method of thinking was right or wrong We didn't want this book to be filled with personal opinions and biases We wanted this book to be juicy and accessible to every person who reads it in whatever corner of the world We have to back up our story with facts of course and get other people to do practical analysis and later we added our own perspectives When we completed writing this book we passed it around amongst critical people spread across the globe Most of them said that the book is somehow highbrow and at the same time all together lowbrow which came as a compliment A lot of people are somewhere in between We want this book to embody that because there are many people there we want them to appreciate this book Changing South Africa Sam C. Nolutshungu, 1982 **Working with indigenous knowledge** Fhumulani M. Mulaudzi, Rachel T. Lebeso, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timely and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research *The Road to Justice: The Bible and the law as cornerstones of civilisation and culture* Eltjo JH Schrage, Jan Adriaan van der Walt, Glynis van der Walt, Hashali

Hamukuaya,2023-10-24 The relationship between art Christian culture and the law often receives attention It is trite that law influences all human lives as well as culture and art The law however does not only provide a context within which art and culture can develop but it is also the cornerstone of civilisation and culture On the other hand we must contemplate whether civilisation and culture are necessary conditions for a legal system This book consists of a compilation of essays narrating the influence of principles from the Bible on which the Christian belief is premised and practised by Christians worldwide on law and on culture Consideration is given to the foundation of the law on different and well known Biblical texts The interplay between Christian principles vis vis the law and culture is considered and unpacked in this research In addition copies of well known art depicting scenes from the Bible enhance each chapter The main author the late Prof Eltjo Schrage passed away shortly before the book was published with the assistance of Prof Jan Adriaan van der Walt Dr Glynis van der Walt and Dr Hashali Hamukuaya Health and Educational Success Tebogo Maria Mothiba,Takalani Mutshatshi,Irene

Ramavhoya,2023-12-06 This book discusses health and educational success from a variety of perspectives It discusses the management of various health conditions such as diabetic mellitus epilepsy mental health hepatitis and HIV AIDS It covers a broad range of topics including strategies that can be used in a healthcare setting in communication as well as transmission of knowledge from one generation to another The focus of the chapters is on patients and their families physiotherapy occupational therapy biokinetics nursing medical students and their facilitators educators and institutions of higher education As such this book is relevant to a variety of sectors in health and education *Education, Race, and Social*

Change in South Africa John A. Marcum,2023-04-28 Education Race and Social Change in South Africa examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa s leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational

opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982
