

DO NOT MAIL THIS WORKSHEET.

You must complete and submit a Free Application for Federal Student Aid (FAFSA) to apply for federal student aid and to apply for most state and college aid. Applying online with FAFSA on the Web at www.fafsa.gov is faster and easier than using a paper FAFSA.

This worksheet has been designed to provide a preview of the questions that you may be asked on FAFSA on the Web. Write down notes to help you easily complete your FAFSA anytime after January 1, 2010.

See the table to the right for state deadlines. Check with your high school counselor or your college's financial aid administrator about other deadlines.

- This Worksheet is optional and should only be completed if you plan to use FAFSA on the Web.
- Sections in purple are for parent information.
- This Worksheet does not include all the questions from the FAFSA. The questions that are included are ordered as they appear on FAFSA on the Web. When you are online you may be able to skip some questions based on your answers to earlier questions.

Apply Faster—Sign your FAFSA with a Federal Student Aid PIN.

If you do not have a PIN, you can apply for one at www.pin.ed.gov. Your PIN allows you to electronically sign when you submit your FAFSA. If you are providing parent information, one parent must also sign your FAFSA. To sign electronically, your parent should also apply for a PIN.

You do not have to pay to get help or submit your FAFSA.
Submit your FAFSA for free online at www.fafsa.gov.
Federal Student Aid provides free help online at www.fafsa.gov or you can call 1-800-4-FED-AID.
TTY users (hearing impaired) may call 1-800-730-8913.

Policy and Choice William J. Congdon,Jeffrey R. Kling,Sendhil Mullainathan,2011-04-01 Traditional public finance provides a powerful framework for policy analysis but it relies on a model of human behavior that the new science of behavioral economics increasingly calls into question In Policy and Choice economists William Congdon Jeffrey Kling and Sendhil Mullainathan argue that public finance not only can incorporate many lessons of behavioral economics but also can serve as a solid foundation from which to apply insights from psychology to questions of economic policy The authors revisit the core questions of public finance armed with a richer perspective on human behavior They do not merely apply findings from psychology to specific economic problems instead they explore how psychological factors actually reshape core concepts in public finance such as moral hazard deadweight loss and incentives Part one sets the stage for integrating behavioral economics into public finance by interpreting the evidence from psychology and developing a framework for applying it to questions in public finance In part two the authors apply that framework to specific topics in public finance including social insurance externalities and public goods income support and redistribution and taxation In doing so the authors build a unified analytical approach that encompasses both traditional policy levers such as taxes and subsidies and more psychologically informed instruments The net result of this innovative approach is a fully behavioral public finance an

integration of psychology and the economics of the public sector that is explicit systematic rigorous and realistic
