Section: INDEX

GENERAL SAFETY RULES

Never carry out any cleaning, lubricating or servicing operations with the battery connected.

Do not wear any rings, watches, jewellery, items of clothing that are loose or hang down, such as scarves, unbuttoned or unzipped jackets or shirts that could get caught up in moving parts. We recommend instead that the operator wear approved safety clothing such as a helmet, non-slip footwear, gloves, safety goggles.

Never use petrol, diesel fuel or other flammable liquids as detergents: use instead non-flammable, non-toxic commercial solvents.

Do not smoke, use naked flames or cause any sparks nearby when handling easily flammable materials.

If working outside the workshop, set the machine preferably on the level and chock the wheels to prevent it from moving. If working on a slope is inevitable, chock the wheels to prevent the machine moving and transfer it to a level area as soon as it is safe to do so.

Disconnect the batteries and label all the controls to warn of the work in progress. Lock the machine and all equipment that has to be lifted.

When towing, use solely the prescribed points of connection and make sure the pins and/or bolts are firmly secured.

Lift and handle all heavy parts with lifting equipment of suitable capacity. Use the lifting eyes provided. Be careful of people.
