Is The 100-gram Weight Limit Right? The National Food Safety Council agrees to the 100-gram limit, stipulating it was based on advice by nutritionists for those considering whether the consumption of 100g of food was enough. The National Institute of Standards and Technology says the 100-gram limit was based on research that an average adult can eat 100 grams of food without any problems.

That's right, the word *independent* doesn't mean you're going to be able to do it without guidance, support, and resources from parents or the school. It means that you're taking responsibility for your education, even when things get tough and no one's helping you. It's not about being selfish or trying to do it all by yourself. It's about being responsible and taking control of your own future. So, when you hear the word *independent*, think about the responsibility that comes with it. It's not just about doing things on your own, but about being able to do them with the help of others when you need it. That's the real meaning of *independent*.
