Learning and Development: From Schoolyards to Wilderness Ming Kuo,Cathy Jordan,2019-11-04 **The Rise and Fall of Civic Education** Michael Learn,2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic education Social studies evolution never resolved the differences between the three with each discipline striving to control the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it The Rise and Fall of Civic Education The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America s divisive politics fight to control the narrative of the disciplines within social studies *Keeping Girls in School* McConnell,Christin ,Mupuwaliywa,Mupuwaliywa ,2015

International evidence indicates that keeping girls in school positively impacts their life trajectory and benefits the well being of the next generation Malawi has made progress in increasing overall enrollment rates but additional effort is still needed to ensure that adolescent girls stay in school and complete a quality education Starting in the upper grades of primary school adolescent girls are more likely to drop out of school than their male counterparts with pregnancy early marriage and school fees frequently cited as the main reasons One of the key challenges in Malawi will be to both focus on girls before they reach puberty and ensure that they get the support they need to complete primary school and successfully transition to secondary school Meanwhile adolescent boys will also need support and guidance to invest in their own education and to value the education of their female peers as a way to build stronger families and communities and break the inter generational cycle of poverty The Government of Malawi will need to assess the effectiveness and sustainability of its policy and programs
