 C. Infanti,2016-03-03 This volume presents a new approach to today s tax controversies reflecting that debates about
 taxation often turn on the differing worldviews of the debate participants For instance a central tension in academic tax
 literature which is filtering into everyday discussions of tax law exists between mainstream and critical tax theorists This
 tension results from a clash of perspectives Is taxation primarily a matter of social science or of social justice Should tax
 policy debates be grounded in economics or in critical race feminist queer and other outsider perspectives To capture and
 interrogate what often seems like a chasm between the different sides of tax debates this collection comprises a series of
 pairs of essays Each pair approaches a single area of controversy from two different perspectives with one essay usually
 taking a mainstream perspective and the other a critical perspective In writing their contributions the authors read and
 incorporated reactions to each other s essays and paid specific attention to the influence of perspective on both the area of
 controversy and their contribution to the debate With contributions from leading mainstream and critical tax scholars this
 volume takes the first step toward bridging the gap between these differing perspectives on tax law and policy **CIMA**
