[Format Your Book](#) Mark Stattelman, 2020-06-19 **FORMAT YOUR BOOK FOR AMAZON USING MICROSOFT WORD** Don't pay for formatting. This book breaks it all down. You'll be formatting your manuscript in record time. This book has it all nicely laid out. You know what you need. Just go straight to the section you need. Do something, and a page number disappears. I'll tell you exactly what clicks to make to get it back. Change a header for one section or chapter, and all of the chapters following that one change. Not what you intended, right? I'll tell you how to fix it. It took me almost a month to figure out how to format my first book in Microsoft Word. It was frustrating. Strange things would happen with the text, and I couldn't figure out why or how to fix it. I watched a ton of YouTube videos to pick up a suggestion here and there from each video. Eventually, after days and weeks, I had a general idea of where to look for the problem. I then had to figure out exactly how to fix that problem. I wanted to pull my hair out. But finally, I got that first book formatted and

then the second third etc Things got a little easier I knew exactly where the trouble spots would be and I generally knew how to fix the problem I do now anyway Are there still glitches Absolutely I m certainly not an expert but I can get the job done in a reasonable amount of time I m working on shortening that time even more And I m trying to shorten the time for you No one should have to just muddle through and spend weeks trying to solve what could be a very simple problem if that person just knew what to click on next The most you ll have to do is figure out what type of font to use or the trim size you want etc All the rest will be pretty much just a matter of you flipping to the correct section Want to add a header It s there Along with showing you how to format in Word I show you the basic ins and outs of Kindle Create A little effort up front and you re on your way Don t pay someone else to do a job you can do yourself Format your own book exactly how you want
