**The Colonial Construction of Indian Country** Eric Cheyfitz, 2023-12-19 A guide to the colonization and projected decolonization of Native America In *The Colonial Construction of Indian Country* Eric Cheyfitz mounts a pointed historical critique of colonialism through careful analysis of the dialogue between Native American literatures and federal Indian law Illuminating how these literatures indict colonial practices he argues that if the decolonization of Indian country is to be achieved then federal Indian law must be erased and replaced with independent Native nation sovereignty because subordinate sovereignty the historical regime is not sovereignty at all At the same time Cheyfitz argues that Native American literatures specifically U S American Indian literatures cannot be fully understood

without a knowledge of U S federal Indian law the matrix of colonialism in Indian country Providing intersectional readings of a range of literary and legal texts he discusses such authors as Louise Erdrich Frances Washburn James Welch Gerald Vizenor Simon Ortiz Leslie Marmon Silko and others Cheyfitz examines how American Indian writers and critics have responded to the impact of law on Native life revealing recent trends in Native writing that build upon traditional modes of storytelling and governance With a focus on resistance to the colonial regime of federal Indian law *The Colonial Construction of Indian Country* not only elucidates how Native American literatures and federal Indian law are each crucial to any reading of the other it also guides readers to better understand the genocidal assault on Indigenous peoples by Western structures of literacy politics and law

**Plantation Pedagogy** Bayley J. Marquez, 2024-02-06 Throughout the nineteenth and twentieth centuries teachers administrators and policymakers fashioned a system of industrial education that attempted to transform Black and Indigenous peoples and land This form of teaching what Bayley J Marquez names plantation pedagogy was built on the claim that slavery and land dispossession are fundamentally educational Plantation pedagogy and the formal institutions that encompassed it were thus integrally tied to enslavement settlement and their inherent violence toward land and people Marquez investigates how proponents developed industrial education domestically and then spread the model abroad as part of US imperialism A deeply thoughtful and arresting work Plantation Pedagogy sits where Black and Native studies meet in order to understand our interconnected histories and theorize our collective futures

**Ambition** Luci Shaw, Jeanne Murray Walker, 2016-01-15 What role should ambition play in our lives Our culture generally buys the American Dream that yes we can fulfill all our aspirations But to seek personal power and fame in the competitive world of Western culture has a dark side Ambition can be subtle and enticing leading to great unhappiness Questions about ambition are more urgent now than they have ever been What is ambition exactly and is it okay to be ambitious What part does self esteem play in personal growth and productivity Can the ego's drive to get ahead and make a name for oneself lead to obsession or a growing narcissism Does the desire to do one's best constitute ambition or faithfulness to one's calling Can personal character and integrity be eroded by too much celebrity and success The writers in

Birgit Däwes, Karsten Fitz, Sabine N. Meyer, 2015-04-24 In recent years the interdisciplinary fields of Native North American and Indigenous Studies have reflected at times even foreshadowed and initiated many of the influential theoretical discussions in the humanities after the transnational turn Global trends of identity politics performativity cultural performance and ethics comparative and revisionist historiography ecological responsibility and education as well as issues of social justice have shaped and been shaped by discussions in Native American and Indigenous Studies This volume brings together distinguished perspectives on these topics by the Native scholars and writers Gerald Vizenor Anishinaabe Diane Glancy Cherokee and Tomson Highway Cree as well as non Native authorities such as Chadwick Allen Hartmut Lutz and Helmbrecht Breinig Contributions look at various moments in the cultural history of Native North America from earthmounds via the Catholic appropriation of a Mohawk saint to the debates about Makah whaling rights as well as at a diverse spectrum of literary performative and visual works of art by John Ross John Ridge Elias Boudinot Emily Pauline Johnson Leslie Marmon Silko Emma Lee Warrior Louise Erdrich N Scott Momaday Stephen Graham Jones and Gerald Vizenor among others In doing so the selected contributions identify new and recurrent methodological challenges outline future paths for scholarly inquiry and explore the intersections between Indigenous Studies and contemporary Literary and Cultural Studies at large **We Do Not Want the Gates Closed between Us** Justin Gage, 2020-10-08 In the 1860s and 1870s the United States government forced most western Native Americans to settle on reservations These ever shrinking pieces of land were meant to relocate contain and separate these Native peoples isolating them from one another and from the white populations coursing through the plains We Do Not Want the Gates Closed Between Us tells the story of how Native Americans resisted this effort by building vast intertribal networks of communication threaded together by letter writing and off reservation visiting Faced with the consequences of U S colonialism the constraints population loss and destitution Native Americans far from passively accepting their fate mobilized to control their own sources of information spread and reinforce ideas and collectively discuss and mount resistance against onerous government policies Justin Gage traces these efforts drawing on extensive new evidence including more than one hundred letters written by nineteenth century Native Americans His work shows how Lakotas Cheyennes Utes Shoshones Kiowas and dozens of other western tribal nations shrewdly used the U S government s repressive education system and mechanisms of American settler colonialism notably the railroads and the Postal Service to achieve their own ends Thus Natives used literacy a primary tool of assimilation for U S policymakers to decolonize their lives much earlier than historians have noted Whereas previous histories have assumed that the Ghost Dance itself was responsible for the creation of brand new networks among western tribes this book suggests that the intertribal networks formed in the 1870s and 1880s actually facilitated the rapid dissemination of the Ghost Dance in 1889 and 1890 Documenting the evolution and operation of intertribal networking Gage demonstrates its effectiveness and recognizes for the first time how through Native activism long distance intercultural communication persisted in the colonized American

Eittreim, 2019-09-27 At the turn of the twentieth century the US government viewed education as one sure way of civilizing others under its sway among them American Indians and after 1898 Filipinos *Teaching Empire* considers how teachers took up this task first at the Carlisle Indian Boarding School in Pennsylvania opened in 1879 and then in a school system set up amid an ongoing rebellion launched by Filipinos Drawing upon the records of fifty five teachers at Carlisle and thirty three sent to the Philippines including five who worked in both locations the book reveals the challenges of translating imperial policy into practice even for those most dedicated to the imperial mission These educators who worked on behalf of the US government sought to meet the expectations of bureaucrats and supervisors while contending with leadership crises on the ground In their stories Elisabeth Eittreim finds the problems common to all classrooms how to manage students and convey knowledge complicated by their unique circumstances particularly the military conflict in the Philippines Eittreim s

research shows the dilemma presented by these schools imperial goal pouring in knowledge that purposefully dismissed and undermined the values desires and protests of those being taught To varying degrees these stories demonstrate both the complexity and fragility of implementing US imperial education and the importance of teachers own perspectives Entangled in US ambitions racist norms and gendered assumptions teachers nonetheless exhibited significant agency wielding their authority with students and the institutions they worked for and negotiating their roles as powerful purveyors of cultural knowledge often reinforcing but rarely challenging the then dominant understanding of civilization Examining these teachers attitudes and performances close up and in depth over the years of Carlisle s operation Eittreim s comparative study offers rare insight into the personal institutional and cultural implications of education deployed in the service of US expansion with consequences that reach well beyond the imperial classrooms of the time
