Small vehicles shoot up, so do accidents

BY SHAFIQ HUSSAIN, DAKHA

A sharp and unrelenting growth of vehicles, especially motorcycles, and their reckless use has led to a rise in road accidents in Bangladesh.

A total of 5,791 fatal road accidents were reported in Bangladesh last year, the highest in a single year and 29.95 percent higher than that of 2020.

Consequently, around 60 percent of deaths were recorded.

According to Bangladesh Road Transport Corporation, an 8000 working on road safety, this increase in the number of vehicles contributed to around 100,000 people getting killed on roads last year, the highest in the last eight years.

Meanwhile, road accidents were reported in almost 50 percent of the 6,247 road vehicles recorded last year.

"Increased growth in vehicle numbers, particularly motorcycles and their reckless use, are directly linked to the increased road accidents," the report stated. "The single most common road accident is 'hit and run' involving a motorcycle."

Such a grim picture indicates deteriorating road safety despite a rampant road transport sector that has emerged in the wake of economic recovery.

Road Transport and Highways Division Secretary SMR Faruk Uddin Khan, however, said they don't believe 100,000 deaths on roads, as mentioned by Bangladesh Road Transport Corporation.

He said about the rising number of road accidents, he said the number of vehicles and length of roads in 2021 and now have to be compared to track any correlation.

in accidents increase with the increase of vehicles and roads.

There have increased collection and collection government on road safety, he said the road has to be safe.

He claimed that around 1 lakh cars were sold in Bangladesh last year for traffic police vehicles, resulting in a decrease in accident numbers.
