International Nuclear Export Controls and Non-Proliferation Ian J. Stewart, 2021-09-27 This book examines the evolution of international nuclear non proliferation trade controls over time The book argues that the international nuclear export controls have developed in a sub optimal way as a result of a non proliferation collective action problem This has resulted in competition among suppliers owing to the absence of an overarching effective system of control While efforts have been undertaken to address this collective action problem and strengthen controls over time these measures have been inherently limited it is argued here because of the same structural factors and vested interests that led to the creation of the problem in the first place This study examines international controls from the beginning of the nuclear age and early efforts to control the atom up to more recent times and the challenge posed by Iranian and North Korean nuclear ambitions Drawing on a rich body of original archival research and interviews the book demonstrates that the collective action problem has restrained cooperation in preventing nuclear proliferation and that gaps persist in the international nuclear trade control regime This book will be of much interest to students of nuclear proliferation and arms control security studies and International Relations

Jehovah's Witnesses in Europe Gerhard Besier, Katarzyna Stokłosa, 2021-08-18 The history of Jehovah s Witnesses in Europe has always been one of persecution This third volume documents this history turning eastward For the first time the circumstances of a religious minority under different political systems can be compared across the continent The studies gathered here provide insight into the methods of repression used by governments and mainstream churches the survival strategies of Jehovah s Witnesses and their various experiences under Eastern European dictatorships The initially cordial relationship with Jehovah s Witnesses that developed after 1990 has steadily reverted to religious discrimination culminating in Russia s renewed ban of Jehovah s Witnesses in 2017 and the confiscation of their properties By violating the universal human right of religious freedom the same conditions that prevailed in the Soviet era have now returned to modern Russia With severest discrimination and abusing jurisdictional procedures to reach their political aspirations the State tries to crush a religious community Against this background it is all the more important not to turn a blind eye to the situation of religious minorities in Eastern Europe but instead to take an honest public stance against it
