readers and new alike **Journal of Asian Martial Arts** ,2008 **A Journey in Search of Wholeness and Meaning**
 Rupert Clive Collister,2010 This book explores the concept that the reality which is created by the consciousness inherent in the Western worldview is exceptionally limiting and probably unsustainable After describing the contexts within which the book was written the author documents his personal journey in search of wholeness and meaning From his experience of this journey he suggests that the wisdom insight and praxis contained within what he describes as the meta narratives of Holism Indigenous cultures and Eastern traditions are manifestations of a holistic consciousness The author explores the concept that a shift to such a holistic consciousness is required in order to redress the imbalance that is evident in all humanity s relationships and he suggests that enabling such a shift in consciousness would have deep implications for the concepts and contexts of community adult learning meaningful work and sustainability Kurikara John Maki Evans,2011-07-05 In Mikkyo Japanese esoteric Buddhism the dragon Kurikara symbolizes the internal energy developed through sword practice Kurikara is a manifestation of the fierce bodhisattva Fudo Myo O the patron of ascetics and warriors in Japan who uses his sword to destroy delusions and sever attachments Fudo s sword represents the gaining of discriminative power and decisiveness the ability to cut through illusion and attachment This leads to the development of an inner energy that allows one to burn up all obstacles to spiritual freedom Kurikara The Sword and the Serpent sets out the eight basic principles of swordsmanship common to all Japanese sword schools emphasizing the cultivation of power and mental focus Accomplished martial artist John Evans provides practical examples from his experience with the sword arts as well as Mikkyo and shugendo mountain asceticism The first foreign student to train with Nakamura Taisaburo sensei widely acknowledged as the master of the sword art battodo Evans clearly explains how skill such as Nakamurua sensei s can be systematically developed through tanren exercises that meld inner and outer power Filled with fascinating anecdotes from Evans s training in Japan Kurikara is a useful inspiring guide to Japanese sword practice and its spiritual underpinnings **The Knightly Art of the Longsword** Hugh Knight,2010-01-15 Johannes Liechtenauer the father of German martial arts created a system of combat that was second to none Later authors wrote books detailing his art some for earnest combat and others for a sportive version that have survived to the present day This book attempts to draw together the writings of various masters of Liechtenauer s school into a single comprehensive source detailing the art of fighting in earnest Not limited to a single author nor to just the basics of the art this book attempts to show the full range of Liechtenauer s art without mixing in any of the more sportive sources from later authors In addition to the techniques themselves The Knightly Art of the Longsword includes information on strategic concepts fundamentals equipment finding a school training and even how to teach the art NB This is the perfect bound edition **Kendo** Alexander C. Bennett,2015-07-31 Kendo is the first in depth historical cultural and political account in English of the Japanese martial art of swordsmanship from its beginnings in military training and arcane medieval schools to its widespread practice as a global sport today Alexander Bennett shows how kendo evolved

through a recurring process of inventing tradition which served the changing ideologies and needs of Japanese warriors and governments over the course of history Kendo follows the development of Japanese swordsmanship from the aristocratic aesthetic pretensions of medieval warriors in the Muromachi period to the samurai elitism of the Edo regime and then to the nostalgic patriotism of the Meiji state Kendo was later influenced in the 1930s and 1940s by ultranationalist militarists and ultimately by the postwar government which sought a gentler form of nationalism to rekindle appreciation of traditional culture among Japan's youth and to garner international prestige as an instrument of soft power Today kendo is becoming increasingly popular internationally But even as new organizations and clubs form around the world cultural exclusiveness continues to play a role in kendo's ongoing evolution as the sport remains closely linked to Japan's sense of collective identity

Rediscovering Budo Roald Knutsen,2021-10-25 In an environment where Budo has lost much of its original spirit in the inevitable process of changing attitudes towards sport Roald Knutsen reappraises and reaffirms the profound and intrinsic importance of the underlying warrior culture and its real legacy Technical knowledge rests entirely in the dojo this book is intended to show those interested something of the roots that underpin the true Bujutsu and Budo and to throw some light on the other complex influences from the past that have enriched so many of the surviving traditions A number of these roots are purely warrior based in nature others are intellectual or even esoteric If a student is only searching for technique then this book will be of limited value But for those inclined to look below the surface there is much to commend it Indeed it will be widely welcomed by more serious Budo practitioners as well as interested observers who are looking for a return to first principles concerned more about substance than style and thereby gain valuable insight into the mind set of Japan's unique warrior culture

and he was a pioneer in bringing Asian martial arts study to the West Here he illuminates the compelling historical political and philosophical events that gave rise to the development of the budo arts The classical budo or martial ways are not combat systems like their forerunner bujutsu or martial arts nor are they sports like modern judo kendo or karate They are first and foremost spiritual disciplines whose ultimate goal achieved through the most rigorous mental and physical training is self realization in the tradition of Zen Buddhism The author details the history philosophy and methods of a variety of these martial ways some using weapons and some weaponless and reveals how they evolved from their combative roots The book includes fascinating artwork from classical sources and archival photographs of modern budo masters in action **The**
